COUNTRYSIDE
CABINETS

MESSAGE FROM THE PRESIDENT

On behalf of everyone at Countryside Cabinets, I would like all of our customers to know how much we value your business, support and partnership. We will continue to improve our operations, product offerings and support to become an even better partner for each of you in the future. Your input is valuable in this continuous improvement journey. I believe you will again see the results of your contributions over the years reflected in this newest version of our product catalog.

We are very proud of what we have been able to accomplish together. Input from each of you and your Manufacturer's Representatives has resulted in a streamlined pricing structure that simplifies the quoting process. The 2024 version of our product catalog showcases a fourth price column, Price Group Zero, to complement the existing three price groups. Our objective with Price Group Zero is to provide a simplified product offering at a very competitive price. All groups, including Price Group Zero, include soft-close hinges and guides in our standard product offering.

At Countryside Cabinets we have a continued commitment to customer care and service which is arguably the best in the industry. If you have any questions regarding this new catalog, Price Group Zero or the other catalog additions, please contact our Customer Service team or your Manufacturer's Representative.

Thank you for your business and we look forward to partnering with you for many years to come.

Kevin Andersen

President

kandersen@countrysidecabinets.com

LIMITED TEN YEAR WARRANTY

Countryside Cabinets, warrants for ten (10) years to the original consumer the cabinet's box construction and finish against defective materials and workmanship under normal home use and service at the original site of installation. This warranty is only applicable to our products used in residential applications and is not transferable.

This warranty does not apply to the natural aging of wood products and degradation of the finished appearance due to natural or artificial light, color fade or visible cracking around joint areas. This warranty does not cover the cost of installation, removal, subsequent damage or transportation of the defective product, regardless of whether work was performed by a contractor, a service company, the dealer or the consumer. This warranty does not cover accessories or parts not manufactured by Countryside Cabinets.

This warranty shall not apply to the effects of normal wear and tear on any product or part thereof which has been subject to accident, alteration, acts of God, abuse, misuse, improper installation, improper storage, excessive humidity or fluctuations in humidity, excessive exposure to direct sunlight, exposure to moisture or exposure to extreme temperatures. We make no warranty whatsoever with respect to accessories or parts not supplied or manufactured by us.

This warranty is expressly in lieu of all other warranties expressed or implied including without limitations the warranties of merchantability, and fitness for a particular purpose, other obligations or liabilities on our part, and we neither assume, nor authorize any other person to assume on our behalf, any other liability in connection with this product. In no event shall Countryside Cabinets be liable for consequential, indirect or incidental damages resulting from the installation, use or failure of its product.

If components are replaced, Countryside Cabinets cannot guarantee that the finish of these replacements will exactly match the finish and appearance of the components in the residential application.

To obtain replacement(s) under this limited warranty, first contact your authorized Countryside Cabinets dealer or distributor, who will arrange for inspection of our product. A dated sales receipt as proof of purchase is required to obtain benefits from this warranty.

CARE & CLEANING GUIDE

As with any product constructed of wood, a few moments of care and using the steps below can go a long way in keeping your new Countryside Cabinets looking their best. Our products have an oven cured, UV catalyzed, water-based finish. This environmentally friendly top coat allows for long-lasting durability and beauty.

We recommend the following processes should be done once or twice each year or when the product needs the attention:

OPTION 1: FOR ROUTINE CARE & CLEANING

Spills and excess moisture should be cleaned up immediately. Wipe down product with a soft, damp cloth to remove dust and other particles then dry promptly with a second clean, soft cloth.

OPTION 2: FOR MORE ATTENTION TO GREASE & DIRT

In order to remove a build-up of grease and dirt add a small amount of a dish washing soap (ie Dawn) to a quart of warm water. Dampen a clean, soft cloth with this solution and wipe down the cabinetry. Use a second clean, soft cloth to remove any and all dampness.

We do not recommend the use of any type of furniture polish or cleaners. Avoid using abrasive cloths, brushes or pads to clean your cabinetry. These products can affect the appearance and durability of the top coat over time. The use of these products will void the warranty.

Thank you again for your purchase and support of Countryside Cabinets and we hope you enjoy the beauty of the wood and the long lasting durability of the finish for years to come.

EFFECTS OF HUMIDITY & TEMPERATURE

In any environment wood will release or pick up moisture until it balances with the humidity of the air. Wood will expand as it gains moisture and contract as moisture is lost. Wood does not shrink or swell equally in all directions and it cannot grow in length, only in width. In an uncontrolled environment these fluctuations may permanently affect the material. The wood may not return to its original size and condition.

Finished stained or painted wood cabinetry located in high humidity climates is especially susceptible to expansion due to the extra moisture in the air. Wood will absorb this moisture causing it to swell or expand.

In low humidity conditions wood will release moisture and shrink or contract in size. In the colder areas of the country, especially in the winter months, cabinetry will shrink from the heat supplied from furnaces and other heating units. As the wood loses moisture gaps will appear at the joints between the cabinetry parts. This may also expose unfinished areas of cabinet door center panels which may need to be touched up. Doors that shrink in width can be moved into place by adjusting the hinges. Painted doors will also reveal seams at the joints as natural wood movement occurs. As the cabinetry regains its lost moisture under humidification control or during the summer months these gaps will often close and be less noticeable. This movement occurs with all natural wood products.

Proper climate control within an environment can greatly reduce the occurrence of moisture related problems.

The environment of the cabinetry should always be maintained with some type of climate control, even when not occupied. To avoid potential problems we recommend that the cabinetry should be allowed to acclimate to the environment's temperature for 3 days prior to installation. Cabinetry should not be installed too close to or directly facing air vents and radiant heat sources. It is recommended to maintain the relative humidity at 40% to 50% within the temperature range of 65°-75°F. Variations in humidity and temperature will cause expansion and contraction. When changes are minor the dimensional response of the wood will be insignificant.

Under normal fluctuations in temperature quality cabinetry will perform and look beautiful for many years. Countryside Cabinets' warranty does not cover damage or other concerns caused by exposure to extremes in temperature or humidity.

KITCHEN CABINET
MANUFACTURERS ASSOCIATION™

Countryside Cabinets is a proud member of the Kitchen Manufacturers Association (KCMA). Headquartered in Reston, VA, KCMA is the principle trade association in the United States for manufacturers of kitchen cabinets, bath vanities, decorative laminate products and suppliers to the industry. KCMA is committed to excellence in manufacturing through continued quality, advocacy and leadership.

Countryside Cabinets has also been awarded the Environmental Stewardship Program (ESP) certification by KCMA. This program recognizes cabinet manufacturers who are taking positive steps towards protecting the environment and producing environmentally responsible cabinetry.

For detailed information on KCMA's certifications, standards and tests, please visit www.kcma.org.

WHY IS CERTIFIED CABINETRY A MUST FOR TODAY'S PERFORMANCE-CONSCIOUS HOMEOWNER?

KCMA's rigorous, in-laboratory compliance program measures the integrity of our cabinetry through five tests. These tests evaluate cabinet structure, door and drawer operation, and the cabinetry finish, making certain each feature complies with the nationally recognized standards developed by KCMA. In today's competitive homebuilding industry, KCMA cabinetry standards are well respected and serve as a best-in-class benchmark for cabinet manufacturers.

So why insist on KCMA-certified cabinets? Because you deserve the comfort that comes with knowing your cabinetry will take whatever life dishes out.

5 REASONS YOU SHOULD PURCHASE FROM AN ESP CERTIFIED MANUFACTURER:

1. **Air Quality:**

ESP certified cabinets are made with materials and finishes that greatly reduce emissions from the cabinets.

2. **Product Resource Management:**

The materials used in making the cabinets are sourced in an environmentally friendly way.

3. **Process Resource Management:**

In making the cabinets the process is environmentally friendly. Process waste is tracked, reduced, and recycled and there is a focus on energy conservation.

4. **Environmental Stewardship:**

The manufacturer has a written policy statement concerning a firm commitment to environmental quality. In addition, the facility may have an environmental management system, requires review of vendor's environmental policies and uses renewable/recycled materials.

5. **Community Relations:**

The manufacturer has a commitment to the community through service and/or charitable giving.

POLICIES & PROCEDURES

ORDER PROCEDURES:

Any complete order received will be acknowledged back to you within 24 hours. The acknowledgment time and date determine the order date which starts the production cycle. The 24 hour review/change period is allocated to business days only (M-F).

Complete orders consist of:

- **Order Data Sheet**
- **Order Form** or 20-20/ProKitchen Quote
- **Custom Cabinet Quote Numbers** (If Applicable)
- **Color Match Sign Off Sheet** (If Applicable)
- **Job-site Delivery Form** (If Applicable)
- **Agreement Form** (If Applicable)

Orders must be submitted via e-mail to:

orders@countersidecabinets.com.

When orders are received incomplete or if there are questions our personnel are instructed to contact the customer immediately via telephone or e-mail to get resolution. Custom cabinet quotes and stain matches should be completed before the order is placed. Cooperation with these policies and timely response to our questions is required in order to maintain the anticipated completion date for your order. We will not send out an acknowledgment until all questions regarding the entire order are resolved.

The time the acknowledgment is sent back to you initiates the 24 hour period to allow for review and potential changes to your order. All changes should be emailed to our customer service department. We must receive a written request for any revisions being made. You will receive a revised order acknowledgment showing any changes made. Again, the date and time on the initial acknowledgeable sets the order date and the 24 hour review period. The review period is not extended if revisions are made.

We strive to be as accurate as possible in the preparation of the acknowledgments. We review our acknowledgments before sending, but errors may occur. Your assistance in a good review of the acknowledgment is greatly appreciated.

Dealers have the final responsibility for a correct order.

Customer service is available to assist you during the following hours:

8:00 a.m. - 4:30 p.m. (M-F) CDT

ASAP ORDERS:

There are some items in the catalog that do not require the full production period. Items under the "Accessories" section may be available in 3 to 5 working days. The lead time for an order consisting only of accessories will be determined by our customer service department based upon the nature of the specific items in that order.

ASAP orders are immediately entered into the system for production. Cancellations and changes will not be allowed.

All orders will ship on the next available truck unless otherwise specified by the customer. Countryside Cabinets may choose to ship accessories via a Delivery Service to ensure a timely delivery.

RUSH ORDERS:

Rush orders are available for situations in which cabinets are needed in less time than our regular production period and incur a 25% Rush Charge. This charge is applied to the entire order. In order to keep our regular production period running smoothly rush orders are limited to 5 cabinet boxes. Custom cabinets cannot be rushed. Color matches will only be rushed if we are matching to a previous color match job where a sign-off sheet has already been received by Countryside Cabinets.

Lead times for Rush orders will be 5 working days less than the regular production period for those cabinets.

Rush orders are immediately entered into our production system, therefore revisions or cancellations will not be accepted.

Please indicate a Rush order by checking the appropriate box on the Order Data Sheet. An acknowledgment for the Rush order is sent back for your review and records.

There is a minimum invoice amount of \$100 net (before shipping charges are applied) for all Rush orders.

Upon completing production, Rush orders will be shipped on the next available De Pere Truck or as specified on the Order Cover Sheet.

REPLACEMENTS:

Replacement orders must come in on a completed replacement form. Please note in detail the specific problem with the product.

Photos of the defective product must be included with the Replacement Order Form.

Replacements will be for the exact product originally ordered.

Warranty replacements must be ordered within 30 days of the product delivery date.

Countryside may request the product be returned due to the nature of the issues. A "Return Goods Authorization Number" (RGA) will be given and the RGA form will be sent to you. A copy of the RGA form must also be attached to the product when it is returned.

In some instances product may need to be re-worked. Countryside may issue a "Rework Authorization Number" (RWA) and a form will be sent to you. A copy of the RWA form must be attached to the product when it is sent back to be reworked. Contact Customer Service or a Sales Representative to discuss possible RWAs.

Lead time for most accessories, stained parts and stained doors will be ready to ship in 3 to 5 working days. Full cabinets will be ready to ship in 7 to 10 working days and may require to be shipped by our truck. Any product glazed or painted will take 10 working days to fulfill the order due to the nature of the finish process.

Countryside reserves the right to ship the replacement product back to the customer on the next available truck or by another delivery service.

CUSTOM QUOTE PROCESS:

When customizing a cabinet beyond the modifications listed in the back of the catalog, a quote is required before the order can be placed.

Send in the Order Data Sheet along with detailed drawings of the custom cabinet desired to:

orders@countrysidecabinets.com.

Customer Service will review the request and respond within 48 hours. If cleared for production, a "Quote Number" (Q#) will be assigned to that particular cabinet. Quotes are valid for 90 days.

When placing an order with a custom cabinet reference the Quote Number on the order's Data Sheet. Please note that failure to obtain a Q# before placing the order or making changes to an existing Q# will delay the acknowledgment, and possibly the order's build date. Contact the customer service department for help with custom cabinets or this process.

CUSTOM COLOR PROCESS:

Countryside offers a custom color program for stain and paint colors. A sample of the color must be provided by the customer in order for Countryside to attempt to complete the match. There is a \$75 net setup fee which includes a door sample of the dealer's choice to be sent to the dealer for approval. Once the dealer receives the sample, a "Color Match Sign Off Sheet" must be signed and sent back to Countryside with the order being placed. An up-charge of 25% will be added to custom stain orders and 40% will be added to custom paint orders for this service. A color match is applicable for one job at a time.

There will be a minimum invoice amount of \$3000 for all stain match orders and \$2000 for all paint match orders.

Additional or replacement parts may be subject to a setup charge of \$50. Please recognize if a job is more than 3 months old a slight variation of the stain is common due to the wood and the aging process. After 3 months Countryside reserves the right to require a new match be made.

DELIVERIES:

Delivery is to tailgate only and dealers must supply a minimum of two people to remove the cabinets from the truck. Shipments must be inspected for damages or missing items at the time of delivery. **Any issues must be documented on the signed copy of the packing slip that stays with the driver.**

Deliveries to our dealer's facility or warehouse are included in our standard pricing. Any other location is considered a job site delivery. Job site delivery **MUST** be requested at the time the order is placed. Orders require a minimum of 12 cabinets to be delivered to a job site. Multiple orders going to the same job-site must be placed at the same time and should be referenced on the order's Data Sheet.

Job sites within 30 miles of the dealer's location will incur a \$200 delivery fee. Mileage will be calculated by our customer service department. Contact Customer Service to get rates for locations more than 30 miles from the dealer.

A Job Site Delivery Form must be sent in with the original order. The map should include the nearest interstate exit. Contact information for the dealer or representative who will be present at the site during the time of delivery needs to be sent over at this time as well.

It is the dealer's responsibility to inspect the route for accessibility. Trucks will run on accessible roads only which is to be determined by the driver. Our drivers reserve the right to refuse a job site delivery due to legal, safety, or logistic concerns.

COD orders will not be delivered to a job site unless prior arrangements have been made with customer service.

PRICING:

All pricing in this book is subject to change without notice. Any pricing errors due to misprints will be subject to change. Please check with Countryside customer service for up to date dealer pricing.

CREDIT POLICY:

All accounts must provide completed credit application, customer profile and a sales tax certificate in order to become a Countryside dealer. Terms for the account will be considered based upon credit history. Terms for dealerships in good standing are Net 30 days. Any account past due will be subject to 1.5 % rate per month (18% annually) until the balance is paid in full.

AGREEMENT FORM

Submit Orders To: orders@countysidecabinets.com

PAGE ____ OF ____

P.O. NUMBER:	
SUBMITTED BY:	

This form must be completed and submitted with the order before your order can be processed.

Fully read and initial ALL sections that apply to your cabinetry purchase and sign at the bottom of this form.

☐

PAINTED PRODUCT

Cabinetry will be given a Painted finish. One of the natural characteristics of wood is that it will expand and contract with temperature and humidity changes. As a result of this wood movement, slight separation may occur causing small cracks in the joints of doors, drawer fronts, face frames, and on flat surfaces. These cracks are unavoidable and should not be considered for warranty replacement.

☐

DUNE (ALL SPECIES)

Dune is designed to capture, lighten and enhance the natural variances of our wood products. A sample door must be viewed in order to recognize the effects of Dune in relationship to the variations in grain and color of the selected wood species. The natural characteristics of wood described on the "Characteristics of Wood Types" page, along with variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Countyside nor your Countyside Dealer can be responsible for these conditions and variations.

☐

PROFILE GLAZE

Cabinets will have glaze applied to the select door profiles and the details of various accessories. Profile glazing will have unique, subtle variations with each application. The glaze is applied with an air brush system to the details of the product and is at the discretion of the artist. This may lead to varying inconsistencies which are considered to be desirable. Countyside's Profile Glaze leaves the base color of the finished door unchanged, only accenting the details of the profiles to create visual contrast and depth.

☐

RUSTIC WOODS (HICKORY, OAK)

Rustic woods are characterized by variation of wood tones and hues and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes which may not be filled. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks. However, those characteristics that might compromise the structural integrity of the door will not be included.

☐

NON-STANDARD SPECIES & FINISH COMBINATION

The order submitted has a species and finish combination that is non-standard to the Countyside line. A sample door has been viewed in order to recognize the effects of the finish in relationship to the graining of the selected wood species. The look of the sample door is the expected look of the cabinet order and should not be considered reason for warranty replacement.

The natural characteristics of wood described on the "Characteristics of Wood Types" page and above, along with variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Countyside nor your Countyside Dealer can be responsible for these conditions and variations.

I have read and initialed the appropriate sections that apply to my cabinetry. As such I agree not to hold Countyside or Countyside's Dealer responsible for these characteristics if found later not to be acceptable.

CHARACTERISTICS OF WOOD TYPES:

SPECIES & UP-CHARGES:

ALL MDF 0%

All MDF is designed to create a consistent and smooth finish for painting. MDF is more resistant to warping, expansion and contraction than Maple. When ordering All MDF the door and drawer front stiles, rails, panels and slabs will be constructed with MDF. Cabinet face frames and accessories will remain paint grade wood. Not available for Alpine and Austin door styles. **Paint up-charges will apply. See page B4 for details.**

HICKORY 0%

Hickory is a strong, heavy hardwood known for its distinctive and random graining patterns. There is a wide variety in color and streaking, ranging from white to dark brown, that can appear in a single door panel. These exaggerated characteristics are to be expected and are considered desirable in hickory cabinetry.

RUSTIC HICKORY +5%

Rustic Hickory contains random knots and wormholes that further contribute to a varied appearance. Review what to expect in our Rustics on the previous page.

MAPLE 0%

Maple is a close-grained hardwood that is predominately white to creamy-white in color, with the occasional reddish-brown tones. Maple is characterized by its smooth, even grain pattern. Mineral streaks and tiny bird pecks are common and will appear darker when stained.

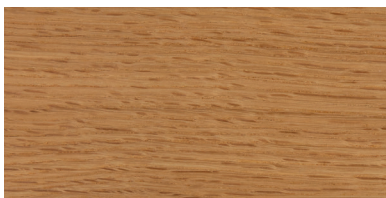

OAK -10%

Red Oak is a very strong, open-grained hardwood that ranges in color from white to pink to reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Red Oak is known for its prominent grain pattern and texture that varies from a tight, straight grain to a distinctive arched pattern.

RUSTIC OAK +5%

Rustic Red Oak adds more color variations and knotholes and may also contain wormholes and wild, varying grain patterns. Review what to expect in our Rustics on the previous page.

QUARTERSAWN WHITE OAK +20%

Quartersawn White Oak boasts a tight, straight grain and tends to be darker than red oak due to the mix of browns and tans in it with various shades of light to dark wood. "Quarter-sawn" refers to the way the wood is cut. The log is cut at a 45-degree angle to the radius of the tree's rings. The result is a tighter, more consistent grain pattern (linear pattern) with dramatic rays or flecks across the grain.

Quartersawn White Oak is available for solid wood door styles in Price Groups 2 & 3. Includes Raised Panel doors, Reverse Raised Panel doors, and Marquis.

THE BEAUTY OF WOOD:

The real beauty of wood comes from the natural qualities of wood itself. Wood will vary in color from shades of white, red, brown and green to almost black. Grain variations of solid hardwood and veneers will vary slightly from wild to nearly straight in appearance. Solid wood panels naturally expand and contract with normal humidity changes due to interior heating and cooling. These characteristics are what makes wood beautiful, and distinct in color. Countryside does not warrant or under any circumstances consider color, graining or minimal shrinkage a defect in material or workmanship.

HARVARD
RUSTIC OAK | WHEAT

LINCOLN REVERSE RAISED
RUSTIC HICKORY | FLINT

OUR RUSTIC WOODS:

Rustic characteristics vary from species to species and with each piece of wood. Guidelines have been set to establish expectations amid these variances. Rustic characteristics will be on the cabinet doors and drawer fronts only. These characteristics will not be found on veneered material such as P205 (flat) center panels, flush finished ends or paneling. A Reversed Raised Panel is required for rustic characteristics on a flat panel door style. Accessories are not available in our rustic species; Hickory or Oak will be substituted.

WHAT TO EXPECT:

- Closed knot up to 3" in diameter
- Knot with cracks up to 1" in length.
- Knot filled with putty to match
- Cluster of tight, sound knots
- Worm or pin holes
- Worm tracks up to 1/8" wide by 8" long

NOT TO BE EXPECTED:

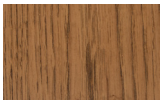

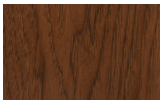

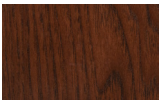

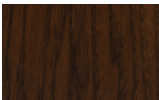

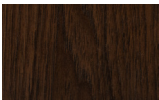

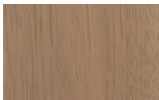

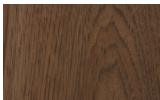

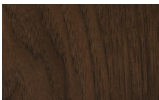

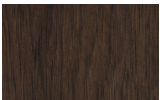

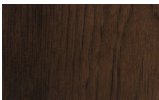

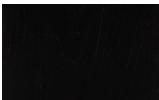

- Rustic characteristics on veneered material.
- Unsound knots (movable core)
- Open knot through the door

FINISHES: STAINS

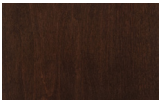

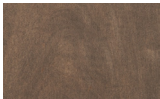

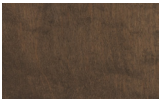

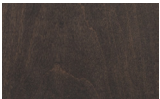

STATE OF THE ART PROCESS:

Countryside Cabinets offers water based stains designed exclusively for our application process. Applied on a state of the art flat line finish system, the stains are sprayed on with reciprocating guns and fine tip heads. Qualified personnel then hand wipe the wood for an even application of the stain, highlighting grain patterns and beauty of the wood. We finish the product using a water based top coat that gives durability and clarity to the cabinetry. The top coat is oven-cured using the latest in ultra violet technology. This process offers a beautiful, long lasting finish that is dry to the touch as it comes off of our line.

FINISHES: PAINTS

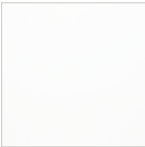

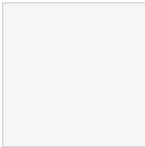

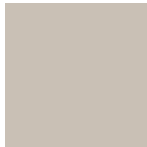

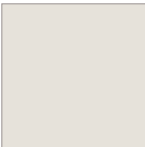

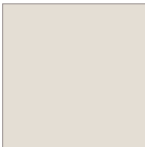

WATER-BASED PAINTS:

Countryside Cabinets offers paints designed exclusively for flat line system. Our painted products and accessories consist of 1 coat of primer and a top coat of water-based paint to achieve the color selected. Water-based paints allow us to provide an environmentally friendly, durable finish with colors that stand the test of time.

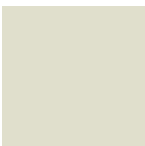

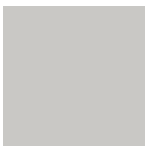

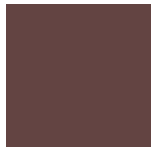

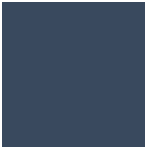

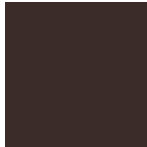

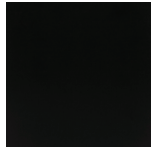

When ordered on painted maple, we use medium density fiberboard (MDF) as a center panel material to minimize the cracking on joints which is a common occurrence to the product in the environment.

CUSTOM COLORS:

STAIN MATCH +25%

PAINT MATCH +40%

Countryside Cabinets offers a custom color program for stain and paint colors. A sample of the color must be provided by the customer in order for us to attempt to complete the match. There is a \$75 net setup fee which includes a door sample of the dealer’s choice to be sent to the dealer for approval. Once the dealer receives the sample, a “Color Match Sign Off Sheet” must be signed and sent back to Countryside Cabinets with the order being placed. An up-charge of 25% will be added to custom stain orders and 40% will be added to custom paint orders for this service. A color match is applicable for one job at a time.

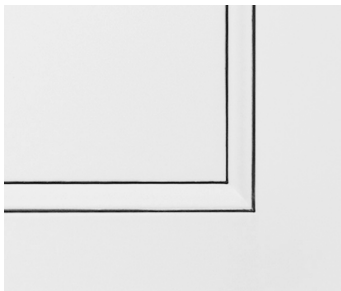

There will be a minimum invoice amount of \$3000 for all stain match orders and \$2000 for all paint match orders.

Additional or replacement parts may be subject to a setup charge of \$50. Please recognize if a job is more than 3 months old a slight variation of the stain is common due to the wood and the aging process. After 3 months Countryside Cabinets reserves the right to require a new match be made.

PROFILE GLAZE:

Countryside Cabinets offers a Profile Glaze on many select door styles and various accessories. Profile glazing leaves the base color of the finished product unchanged. The Profile Glaze is applied using a high tech air brush system. It accents the details of the profiles to create visual contrast and depth. Glazed orders will have an extended lead time.

Profile glaze locations are indicated by an arrow on our product drawings throughout the catalog.

OVERLAY DETAILS:

REVEAL DETAILS:

CONSTRUCTION FEATURES:

A: CABINET BOX:

STANDARD CONSTRUCTION:

Tops, bottoms and end panels are constructed from 1/2" thick industrial grade furniture board with a Maple printed interior and exterior. End panels are dadoed into the face frame and set back from the outside edge 3/32". Backs are 1/4" thick industrial grade medium density fibercore, with printed Maple wood-grain to match the cabinet interior. Backs are affixed to end panels with machine dados and are reinforced with adhesive and staples. Embossed quality Maple printed finish allows for easy clean up and reduces the likelihood of stains.

PLYWOOD CONSTRUCTION:

Tops, bottoms, end panels and nailers are constructed from 1/2" thick plywood with a Maple finished interior and exterior. End panels are dadoed into the face frame and set back from the outside edge 3/32". The exterior of the end panel is intended for concealed installation. Finished ends must be specified. Backs are 1/4" thick plywood, with Maple printed finish to match the cabinet interior. Backs are affixed to end panels with machine dados and are reinforced with adhesive and staples. Finished interior cabinets will not be plywood, they will be MDF with veneer. Plywood shelves are also available.

PLYWOOD BOX	+9%
PLYWOOD BOX & SHELVES	+12%

CABINETRY INTERIORS:

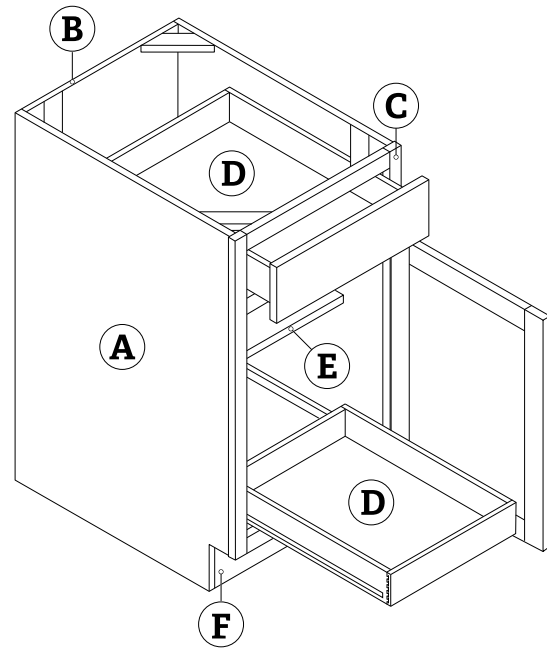

Cabinet interior has a natural Maple printed finish. This creates an attractive wood-grain appearance while providing a durable, non-porous, abrasion resistant surface.

B: NAILERS:

Our nailers are made from medium density industrial grade furniture board affixed to the cabinet backs with glue and staples. All nailers are 1/2" x 2 1/2". Nailers will be plywood on plywood cabinets.

C: FACE FRAMES:

Face frames are 3/4" thick solid wood with 1 1/2" stiles and rails. Vertical center mullions, when present, are 3". Intermediate rails are 1 1/2" in base and vanity cabinets, and 1 1/2" or 3" in wall and tall cabinets, depending on cabinet configuration. Face frames are dadoed to receive end panels, tops, bottoms, and fixed shelves. They are reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

D: DOVETAIL DRAWERS & ROLLOUTS

Drawer box is 5/8" thick, with hardwood sides, back and front. Drawer boxes are finished with a clear topcoat and dovetailed corners. Captive drawer bottom is 1/4" thick, Maple printed, and dadoed into the drawer box sides, back and front. The standard soft-close full-extension drawer guide is rated 75 pounds.

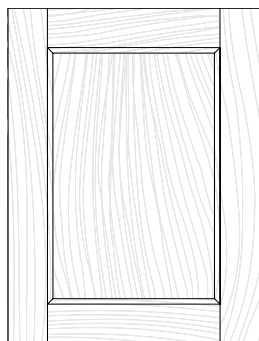

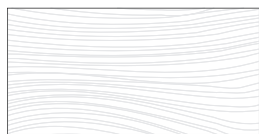

E: ADJUSTABLE SHELVES:

Shelves are 3/4" thick, Maple printed and edge banded to match the cabinet's interior. Shelf holes are 5mm in diameter and measure 1 1/4" apart center to center.

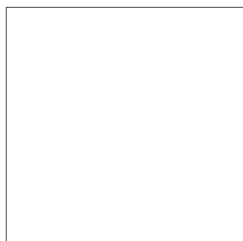

F: TOE BOARD:

Cabinet toe space is 4 1/2" high and 3" deep (prior to the 1/4" thick toe kick [WTK] installation). Cabinets in the Office & Other section of the catalog feature a 3" flush toe.

With limited door styles, finishes and SKUs, Price Group Zero is Countryside Made Simple. Price Group Zero provides a simplified product offering at a competitive price. Cabinets offered in this group will feature the same quality construction as the rest of our products.

Cabinets will be constructed with matching vinyl end panels when exposed ends are specified.

DOOR STYLES:

- Franklin, Freemont & Princeton
- Slab Fronts
- *Not available: 5-Piece Fronts, Beadboard, Reverse Raised, Open For Glass or 1/3 Split doors*

SPECIES & FINISHES:

- All MDF White Ice
- All MDF Bisque
- Maple Wheat
- Maple Canyon
- Maple Driftwood

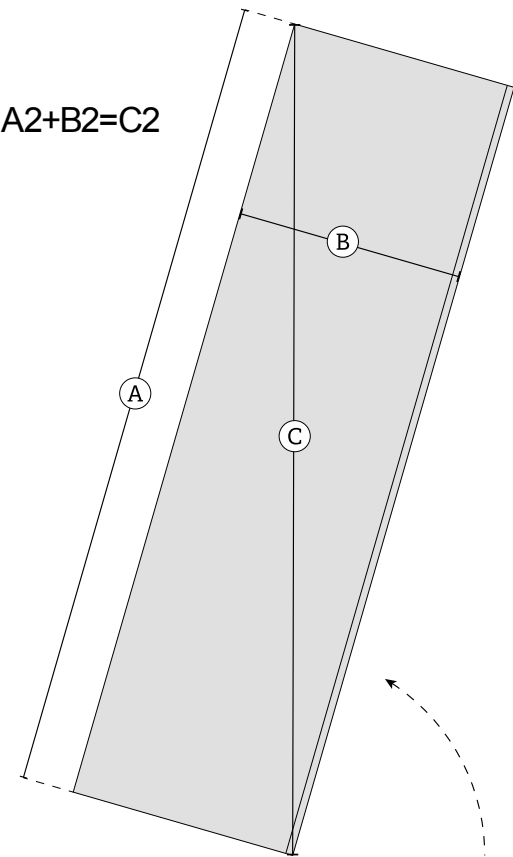

CONSTRUCTION:

- Standard, Modified & Full Overlays
- Furnitureboard Box
- Soft-Close Full-Extension Undermount Track
- Soft-Close Concealed Hinges
- Dovetail All-Wood Drawer Box
- Cabinets built with Matching Vinyl Ends when Exposed Ends are specified.
- Matching Vinyl Ends are dadoed into the face frame and set back from the outside edge $\frac{9}{32}$ ".
- *Not Available: Plywood Construction, Finished Interior, Heavy-Duty Drawer Track*

SKU OFFERING:

- Wall Cabinets at 30", 36" and 42" Heights; 12" and 15" Depths
- Base Cabinets at 34.5" High; 24" Deep
- Tall Cabinets at 84", 90" and 96" Heights; Configurations at 18", 21" and 24" Depths
- Vanity Cabinets at 31.5" and 34.5" Heights; 18" and 21" Depths
- SKUs limited to basic configurations. See product pages for details on available cabinets.
- Value Line Trash Bins available.
- Universal Cabinets
- **Refer to page L1 for a complete list of cabinets available in Price Group Zero.**
- *Not available: Applied Finished Ends, Rollout Drawers, Accessories, Modifications.*

WALL CABINET CONSTRUCTION

A: FACE FRAMES

Constructed of $\frac{3}{4}$ " kiln dried wood. The frames are machined with dadoes, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: TOPS, BOTTOMS & END PANELS

Countryside uses $\frac{1}{2}$ " industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of $\frac{1}{4}$ " industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine grooving, reinforced with glue and staples.

D: ADJUSTABLE SHELVES:

Shelving is constructed from $\frac{3}{4}$ " industrial grade furniture board. Shelf holes are 5mm in diameter and measure $\frac{1}{4}$ " from center to center. Shelf quantity is determined by cabinet height. See product pages for details.

E: NAILERS

Nailers (hanger rails) consist of $\frac{1}{2}$ " x $2\frac{1}{2}$ " medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

WALL CABINETS

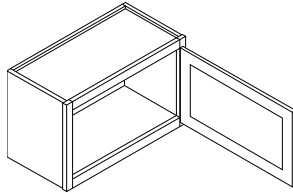

- Specify hinge Left (L) or Right (R) on Single Door cabinets 24" wide.
- Cabinets 27"-36" wide can be ordered with a center stile by omitting "B" from the SKU.

NO MODIFICATIONS IN PRICE GROUP 0.

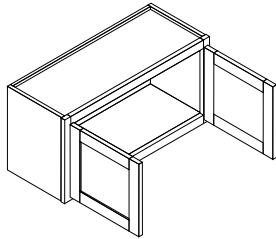

MODIFICATION NOTES FOR PRICE GROUPS 1, 2 AND 3:

VENT250

VENTILATION POWER MODULE: 250CFM

- 250 CFM/8 Sones
- Two-speed motor rocker control.
- Ducting is vertical 7" round.
- Power requirements: 120 VAC, 60 Hz – 2.3 Amps
- Features a silver metallic finish.
- Vents are set up for duct (aluminum filter); if ventilation is ductless a Charcoal Filter will be required (needs to be purchased separately).
- Dual 40 watt lighting; light bulbs not included. Small base candelabra bulbs are recommended.
- For best capture of cooking impurities, the bottom of the hood should be 24"-30" above the cooking surface.
- Not compatible with Province Wood Hood.
- RHVBF300SS

BASE CABINET CONSTRUCTION

A: FACE FRAMES

Constructed of $\frac{3}{4}$ " kiln dried wood. The frames are machined with dados, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: BOTTOMS & END PANELS

Countryside uses $\frac{1}{2}$ " industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of $\frac{1}{4}$ " industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine

dados, and are reinforced with glue and staples.

D: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are 58" thick with Hardwood sides, back and front. They are finished with a clear topcoat and dovetailed corners. Drawer Bottom is $\frac{1}{4}$ " thick, dadoed into the drawer box sides, back and front. Soft-Close drawer track is rated for 75 pounds.

E: ADJUSTABLE SHELVES:

Shelving is constructed from $\frac{3}{4}$ " industrial grade furniture board. Shelf holes are 5mm in diameter and measure $1\frac{1}{4}$ " from center to center. Shelf

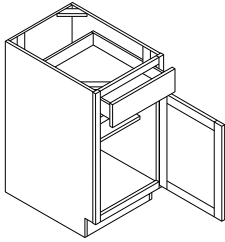

quantity is determined by frame opening height. See product pages for details.

F: NAILERS

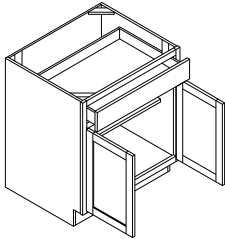

Nailers (hanger rails) consist of $\frac{1}{2}$ " x $2\frac{1}{2}$ " medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

G: CORNER BRACES

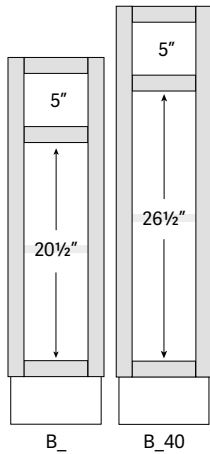

White plastic corner braces are placed at the top of the cabinet to ensure square construction and countertop installation.

THIS PAGE INTENTIONALLY LEFT BLANK

TALL CABINET CONSTRUCTION

A: FACE FRAMES

Constructed of $\frac{3}{4}$ " kiln dried wood. The frames are machined with dados, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: TOPS, BOTTOMS & END PANELS

Countryside uses $\frac{1}{2}$ " industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

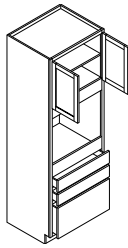

Consist of $\frac{1}{4}$ " industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine dados, and are reinforced with glue and staples.

D: ADJUSTABLE SHELVES:

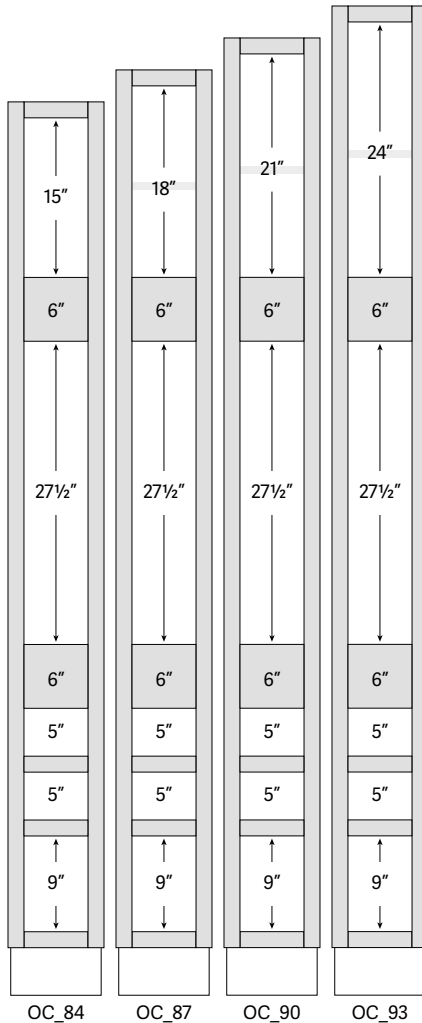

Shelving is constructed from $\frac{3}{4}$ " industrial grade furniture board. Shelf holes are 5mm in diameter and measure $1\frac{1}{4}$ " from center to center. Shelf quantity is determined by cabinet height. See product pages for details.

E: NAILERS

Nailers (hanger rails) consist of $\frac{1}{2}$ " x $2\frac{1}{2}$ " medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

THIS PAGE INTENTIONALLY LEFT BLANK

VANITY CABINET CONSTRUCTION

A: FACE FRAMES

Constructed of $\frac{3}{4}$ " kiln dried wood. The frames are machined with dados, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: BOTTOMS & END PANELS

Countryside uses $\frac{1}{2}$ " industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of $\frac{1}{4}$ " industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine dados, and are, reinforced with glue and staples.

D: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are 5/8" thick with Hardwood sides, back and front. They are finished with a clear topcoat and dovetailed corners. Drawer bottom is $\frac{1}{4}$ " thick, Maple printed, dadoed into the drawer box sides, back and front. Standard Undermount drawer track is rated for 75 pounds.

E: ADJUSTABLE SHELVES:

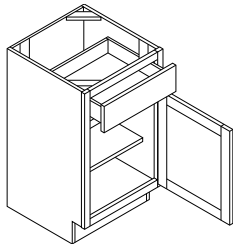

Shelving is constructed from $\frac{3}{4}$ " industrial grade furniture board. Shelf quantity is determined by frame opening height. See product pages for details.

F: NAILERS

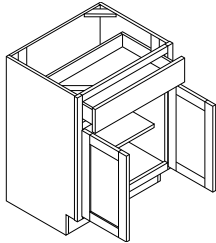

Nailers (hanger rails) consist of $\frac{1}{2}$ " x $2\frac{1}{2}$ " medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

G: CORNER BRACES

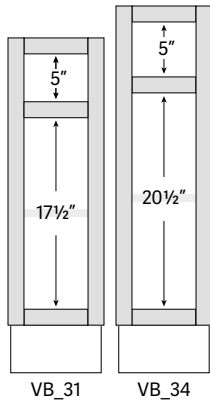

White plastic corner braces are placed at the top of the cabinet to ensure square construction and counter top installation.

OPEN LEG VANITY CONSTRUCTION

A: FACE FRAMES

Constructed of 3/4" kiln dried wood. The frames are machined with dados, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: BOTTOMS & END PANELS

Countryside uses 1/2" industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of 1/4" industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine dados, and are, reinforced with glue and staples.

D: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are 5/8" thick with Hardwood sides, back and front. They are finished with a clear topcoat and dovetailed corners. Drawer Bottom is 1/4" thick, Maple printed, and dadoed into the drawer box sides, back and front. Standard Undermount drawer track is rated for 75 pounds.

E: WOOD LEGS:

Legs are constructed from 3/4" solid wood with mitered corners for streamlined stability.

F: WOOD SHELF:

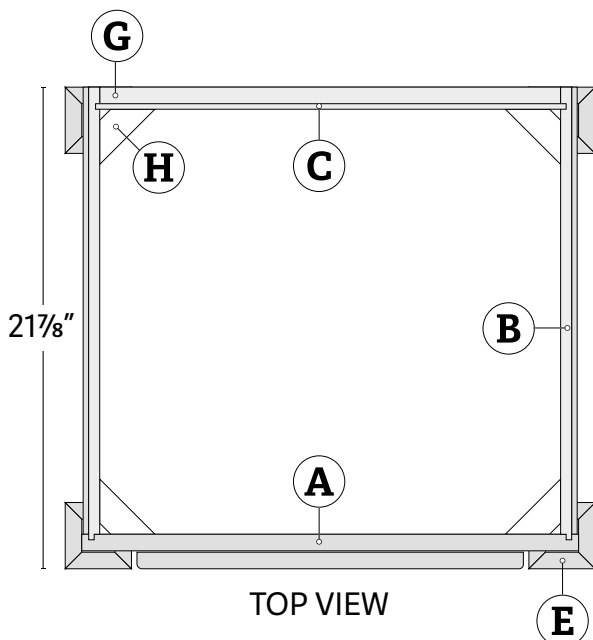

Shelf is made out of 3/4" veneered furniture board and finished with a 1 1/2" solid wood drop edge.

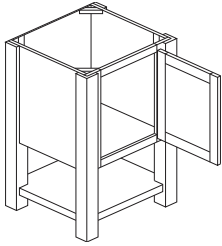

G: NAILERS

Nailers (hanger rails) consist of 1/2" x 2 1/2" medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

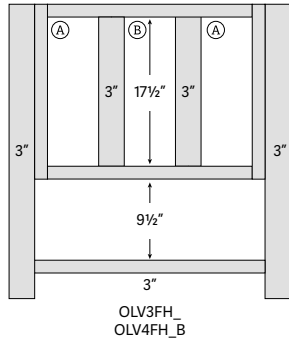

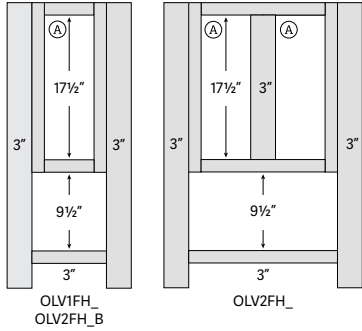

H: CORNER BRACES

White plastic corner braces are placed at the top of the cabinet to ensure square construction and countertop installation.

PLATFORM VANITY CONSTRUCTION

A: FACE FRAMES

Constructed of ¾" kiln dried wood. The frames are machined with dadoes, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: BOTTOMS & END PANELS

Countryside uses ½" industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of ¼" industrial grade medium density Maple printed fibercore to match the cabinet's interior. Backs are affixed to end panels with machine dados, and are, reinforced with glue and staples.

D: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are 5/8" thick, all hardwood (sides, back and front) with a clear topcoat and dovetailed corners. Drawer Bottom is ¼" thick, Maple printed, and dadoed into the drawer box sides, back and front. Features Soft-Close track rated for up to 75 lbs.

E: PLATFORM:

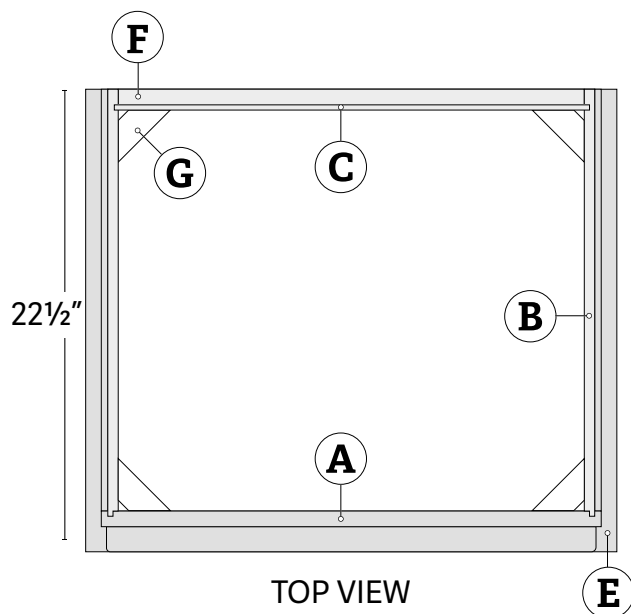

Shelf is made out of ¾" veneered furniture board and finished with a 1" solid wood edge. Four feet are attached and placement can be adjusted prior to installation. Measures 1½" wider than and ¾" deeper than cabinet box.

F: NAILERS

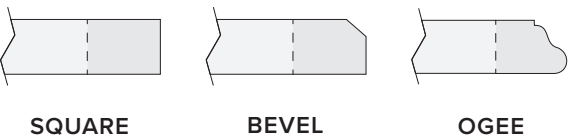

Nailers (hanger rails) consist of ½" x 2½" medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

G: CORNER BRACES

White plastic corner braces are placed at the top of the cabinet to ensure square construction and countertop installation.

Platform Vanity Options

1: SELECT PLATFORM EDGE

Select one of three options to accent the wood edge on the platform base.

2: SELECT FOOT STYLE

Each Platform Vanity includes 4 feet that will be attached to the platform base. Choose from seven styles to create the desired look. Foot placement can be adjusted prior to installation.

	FOOT HEIGHT	VANITY HEIGHT	NOTES
FOOT1	4½"	34½"	
FOOT2*	4⅝"	34⅝"	NOT AVAILABLE IN HICKORY
FOOT4*	4½"	34½"	
FOOT5*	4½"	34½"	NOT AVAILABLE IN HICKORY OR QUARTERSAWN WHITE OAK.
FOOT6	4½"	34½"	
FOOT7	4"	34"	
FOOT8	4⅞"	34⅞"	

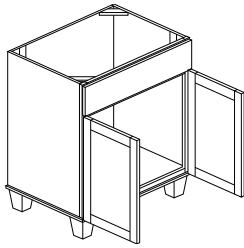

* Feet are not available in Hickory.

3: SPECIFY ENDS:

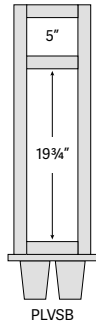

Platform Vanity prices include Flush Finished Ends. Specify an Extended Stile in place of the Flush Finished End for flush installation to a wall. When extended stile is specified the frame will be extended ¾" to the edge of the platform, and there will be no Platform Edge on that side.

Please Note: Platforms will be shipped separately from vanity cabinet boxes.

OPEN LEG ISLAND CONSTRUCTION

A: FACE FRAMES

Frames are constructed of 3/4" kiln dried wood and are found on both the front and back of the cabinet. The frames are machined with dadoes, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: BOTTOMS & END PANELS

Countryside uses 1/2" industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are 5/8" thick, all hardwood (sides, back and front) with a clear topcoat and dovetailed corners. Drawer Bottom is 1/4" thick, Maple printed, and dadoed into the drawer box sides, back and front. Features Soft Close track rated for up to 75 lbs.

D: WOOD LEGS:

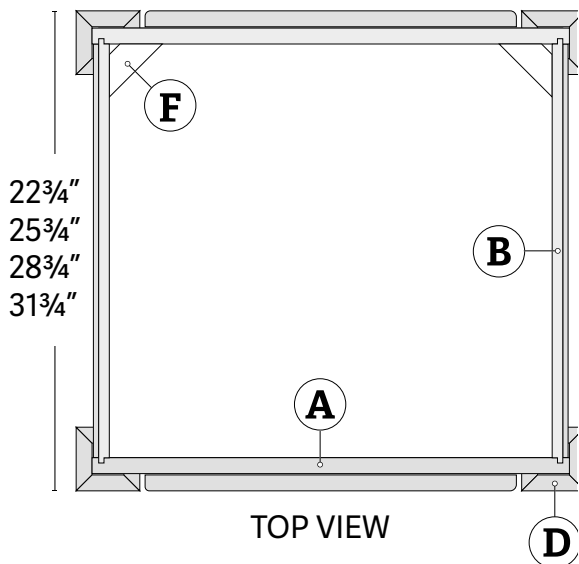

Legs are constructed from 3/4" solid wood with mitered corners for streamlined stability.

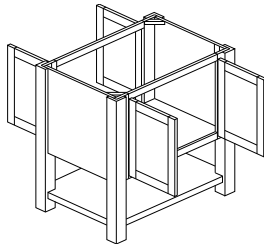

E: WOOD SHELF:

Shelf is made out of 3/4" veneered furniture board and finished with a 1 1/2" solid wood drop edge.

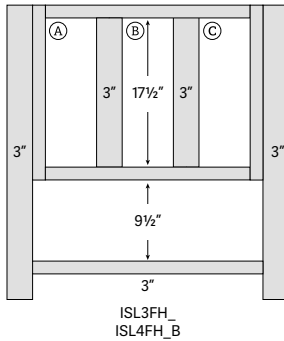

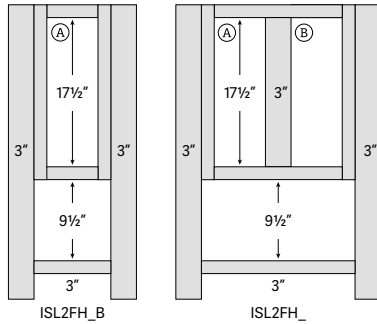

F: CORNER BRACES

White plastic corner braces are placed at the top of the cabinet to ensure square construction and countertop installation.

THIS PAGE INTENTIONALLY LEFT BLANK

OFFICE & OTHER CABINET CONSTRUCTION

A: FACE FRAMES

Constructed of $\frac{3}{4}$ " kiln dried wood. The frames are machined with dados, reinforced with self-boring screws, and bonded with adhesives to enhance stability and ensure square construction.

B: TOPS, BOTTOMS & END PANELS

Countryside uses $\frac{1}{2}$ " industrial grade furniture board; secured with staples and bonded adhesives for strength. Embossed quality Maple printed finish allows for easy clean-up.

C: BACK PANELS

Consist of $\frac{1}{4}$ " industrial grade medium density Maple printed fibercore to match the cabinets interior. Backs are affixed to end panels with machine dados, and are reinforced with glue and staples.

D: DOVETAIL DRAWER BOXES

Countryside's drawer boxes are $\frac{5}{8}$ " thick with hardwood sides, back and front. They are finished with a clear topcoat and dovetailed corners. Drawer Bottom is $\frac{1}{4}$ " thick, dadoed into the drawer box sides, back and front. Standard soft-close track is rated for 75 pounds.

E: ADJUSTABLE SHELVES:

Shelving is constructed from $\frac{3}{4}$ " industrial grade furniture board. Shelf holes are 5mm in diameter and measure $1\frac{1}{4}$ " from center to center. Shelf quantity is determined by frame opening height. See product pages for details.

F: FLUSH TOE

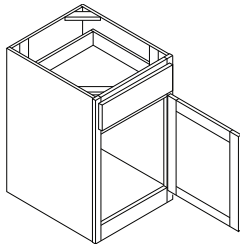

Office base and tall cabinets are constructed with a 3" flush toe kick. The reveal on the bottom rail is $2\frac{1}{2}$ " for cabinets in Standard Overlay, and $1\frac{3}{4}$ " for cabinets in Modified or Full Overlays.

G: NAILERS

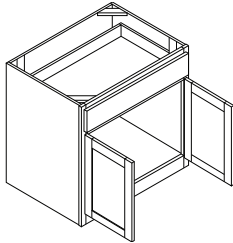

Nailers (hanger rails) consist of $\frac{1}{2}$ " x $2\frac{1}{2}$ " medium density industrial grade furniture board affixed to the cabinet backs with glue and staples.

H: CORNER BRACES

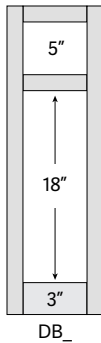

White plastic corner braces are placed at the top of the cabinet to ensure square construction and countertop installation.

STAIN TUK

TOUCH-UP KIT

- Finish up-charges apply.
- Stain Touch-Up Kits include a stain marker and a wax stick.
- Paint Touch-Up Kits include a paint marker and a jar of putty.
- Neither wax sticks nor putty are available for custom color matches.
- Tips for use:
 - Fill with the wax stick or putty.
 - Clean off excess wax or putty. Start with plastic scraper, then rub around filled area with rag.
 - Come back with the marker on top of the wax to add more color to match graining or darken the spot. The marker dries fully in 8-10 seconds so blend immediately after applying.

- Dimension increases apply only when the desired size of the cabinet exceeds our largest standard size.
- Additional charges may be applied depending on the cabinet features.
- Increasing the depth of the cabinet over 24" and also increasing the depth of drawers or rollouts in that cabinet will result in additional charges for deeper drawer track.
- Increasing the width of a cabinet with a drawer may require a drawer track up-grade and extra drawer support.
- Minimum cabinet size is 9" in width and height and 4½" for depth.
- Minimum drawer opening is 6" wide and 3¾" high.
- Maximum drawer opening is 33" wide and 14¾" high.
- Cabinets less than 12" deep will not have drawer track.
- Contact customer service with questions regarding maximum sizes.
- Not applicable to increasing a cabinet height over 96".

NOT AVAILABLE IN PRICE GROUP 0.
