Your Destination for a Next-Level Customer Experience

MasterBrand Connect™ is a one-stop information portal aimed at enabling you to be in the driver's seat of your success. Within Connect, you have access to personalized dashboard content, improved order tracking, customer service case visibility, and much more. The result is an easy to navigate system with must-have information at your fingertips.

Feature Highlights:

- ✓ Mobile-friendly design with improved navigation and easier-to-use interface
- ✓ Unique log-ins per user with personalized content and preferences
- ✓ Improved search capability including POs and acknowledgement numbers
- ✓ Customer Service case visibility
- ✓ More timely order tracking with connected order visibility
- ✓ Communication preference selections
- ✓ Self-service account changes like phone, address and email

Check it out today at masterbrandconnect.com, or scan the code.

If you do not have a MasterBrand Connect account, please contact your Sales Representative to sign up.

CABINETS

Sedona Painted Hardwood Mesa with Oak Fallow Island

NEW PAINT: **MESA**

The trend of warm tones in kitchen design has gained significant popularity as homeowners seek to create inviting and cozy spaces. Shades like soft beige, and creamy whites are replacing cooler hues, offering a sense of comfort and relaxation. These colors enhance the kitchen's overall warmth and pair beautifully with natural materials such as wood stains. Overall, emphasizing warm tones transforms the kitchen into a heartwarming hub of activity and comfort.*

Matching Laminate Ends Standard.

SEDONA PAINT **MESA**

NEW PAINT: LAKESIDE

Navy blue is one of those colors that never goes out of style. This stunning, deeper navy blue will enhance any space, offering a more neutral and timeless look than ever before. It's strong and deep enough to ground the space, yet you're still able to inject some color into your design. One of the most exciting things about navy blue is how well it pairs with a variety of other colors. Its deep richness pairs well with vibrant hues.

Matching Laminate Ends Standard.

TIP: CREATE MORE WITH CUSTOM CHOICE™

Our flexible manufacturing capabilities allow you to order cabinets and panels beyond the standard product offering in the price and specification guide at **no additional charge**. Find complete details in the price and specification guide.

HOW WE DID IT:

- ① False Slab Drawer Front with Split Drawers ② Wall Cabinet with Two Drawers ③ Wall Cabinet with Drawer

NOTES

CHARACTERISTICS

Wood

No matter which species you choose for your new kitchen or bath cabinetry, please keep in mind that no two pieces of wood are exactly the same. Stains are likely to exaggerate the difference between open and closed grains and other markings in wood. Grain variation and color change should be expected. As hardwood ages, it will darken when exposed to different types of light. Color differences or changes in wood can also be caused by exposure to harsh chemicals, extreme heat or moisture. Additionally, wood species exhibit other defining characteristics, such as mineral deposits/streaks, knots, sap runs, pin holes and wormholes. These markings make the wood unique and contribute to its enduring beauty.

Hickory is a strong, heavy hardwood known for distinctive graining patterns. Contributing to its dramatic appearance is a wide variation in color and streaking, ranging from white to dark brown. This contrast in color can appear in a single door panel. Hickory also contains random knots and wormholes that further contribute to a varied appearance. These exaggerated characteristics are to be expected and are considered desirable in hickory cabinetry.

Maple is a close-grained hardwood that is predominately white to creamy-white in color, with occasional reddish-brown tones. While maple typically features uniform graining as compared to other wood species, characteristic markings may include fine brown lines, wavy or curly graining, bird pecks and mineral streaks. These traits are natural and serve to enhance maple's natural beauty.

Oak is a strong, open-grained hardwood that ranges in color from white to pink and reddish tones. Streaks of green, yellow and even black may appear due to mineral deposits. Oak may also contain wormholes and wild, varying grain patterns. This distinct graining is considered a desirable quality.

Painted Hardwood finishes combine hardwoods and engineered materials including solid-wood, engineered materials — such as medium density fiberboard (MDF) and high density fiberboard (HDF) — and similar composite materials providing a smoother surface for painting and superior stability, consistency, and durability.

Rustic Hickory is a strong, heavy hardwood known for distinctive graining patterns. Color will vary from nearly white to dark brown, with wild flowing grain patterns and dramatic color variations. Rustic Hickory can have a fine uniform grain to large knots appearing black and brown in color of various shapes and sizes, sapwood, mineral and some checking. Cabinet doors and drawer fronts will be the only items that will feature rustic characteristics.

Sound Closed Knot (not moveable) — Expected up to approximately 3" in diameter

Sound Knot with Cracks — Expect sound knots with open cracks up to approximately 1" in length

Open Knot (through door) — Expected with open area up to approximately 3/4" in diameter

Unsound Knot (moveable core) — Not to be expected

Worm Holes/Pin Holes (can go through the door) — Can be expected up to 1/4" diameter

Worm Tracks — Can be expected in sizes up to approximately 1/8" wide by 8" long

In keeping with our practice of continuous product improvement and/or to maximize efficiencies, Homecrest Cabinetry may adjust specifications in design and materials as it deems necessary. Where differing materials are utilized, they will be of similar or better quality in keeping with Homecrest Cabinetry's commitment to quality.

Laminate

The surfaces of doors, drawer fronts, and overlay fillers feature laminate materials with an integrated top coat that provides superior beauty, durability, and performance. The core panel material is made of MDF to ensure a consistent and stable product.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

PureStyle™ Laminate

PureStyle™ is an innovative laminate that is applied to a wood or engineered wood substrate. Characteristics include crisp styling, consistent coloration, and abrasion-resistant durability.

These doors offer the durability of a laminate and the beauty of paint while bringing peace of mind to those who care about creating a better environment — both inside and outside of their homes.

PureStyle™ doors can be distinguished from painted cabinets by their picture perfect distribution of satin smooth color on a sleek surface with optimum durability. Trim items will feature a matching painted finish except where noted in product specifications.

A heat shield is required to separate all laminate products from heat producing units to be in compliance with cabinet warranty.

In the Species Availability charts throughout the book, refer to Laminate column for PureStyle™ availability.

WOOD DUST WARNING

When cutting, sanding, sawing, or shaping cabinets or wood products, you are likely to generate wood dust. For your own safety, we recommend that you wear a protective mask to prevent breathing wood dust. We also recommend eye protection to avoid injury by flying wood chips or sawdust during cabinet installation.

CERTIFICATIONS

ANSI A161.1

Our products meet or exceed the ANSI A161.1 performance and construction standards for kitchen and vanity cabinets as certified by ICC-ES (International Code Council Evaluation Service). Learn more at masterbrandcabinets.com/certifications.

TSCA Title VI

TSCA Title VI is a U.S. regulation that sets formaldehyde emissions standards for composite wood products, such as hardwood plywood, medium-density fiberboard, and particleboard, as well as products containing them, such as furniture. It requires composite wood products to be tested and certified by EPA-recognized third-party certifiers using specific methods. This federal regulation applies to all states and territories in the U.S. and is identical to the California Air Resources Board (CARB) rule. Learn more at masterbrandcabinets.com/certifications.

CARB Compliance - Formaldehyde Emissions

Homecrest Cabinetry is committed to offering solutions that meet or exceed air emissions rules and regulations. All composite wood products used in the construction of our cabinets, which includes end panels, bottoms, backs, shelves, toekicks and corner blocks, are compliant with emissions limits under EPA TSCA Title VI, CARB Phase 2 and HUD.

Door Style Price Point Reference Chart

Your Homecrest Cabinetry price guide contains charts with prices for each cabinetry product, arranged according to a numerical code. Use the chart below to determine the price code for your preferred cabinetry style.

OVERLAY SPECIFICATIONS

4

DOOR STYLES

Full Overlay

The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Full Overlay (FULL)

Modified Full Overlay

Wall and Tall Cabinets: The door and drawer fronts overlay the frame exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall cabinets. Typical units with a center stile expose 1/2" of that stile.

Base Cabinets: The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.

Modified Full Overlay (Wall and Tall)

Modified Full Overlay (Base)

*34 1/2" high application shown. On 32" high Full Overlay three drawer applications (drawer bases and sink bases with drawers), the reveal above the bottom drawer front is 1/2".

- One double door center stile cabinet has the same reveal as two single door cabinets.

OVERLAY SPECIFICATIONS

Traditional Overlay

Traditional Overlay

The door and drawer fronts overlay the face frame 1/2", exposing 1" of the frame both on the stile and rail members. Typical wall and base cabinets with a center stile expose 2" of that stile.

Exceptions on Face Frame Reveals

- Some oven units have 3" stiles and 9" intermediate rails (designed for universal flexibility of cut-out options) that create various reveals.
- Blind corner wall and base cabinets expose different center stile reveals. Diagonal corners also vary.
- Please see the dimensional charts for oven units and blind bases located in those sections.

*On Traditional Overlay 2BD__ (Two Drawer Bases), reveal above the bottom drawer front is 2".

DOOR STYLE SPECIFICATIONS

Paint

- When Paint or Paint with Glaze finish is specified, select doors and/or drawer front center panels may be constructed of Medium Density Fiberboard (MDF). MDF provides a smooth finish when painted, and is resistant to warping, expansion, and contraction. Facings may consist of other hardwood components.

All Door Styles

- All doors and drawer fronts are 3/4" thick unless otherwise noted.

Door and Drawer Front Side Profiles

- Veneer and MDF components are shown with gray shading on side profiles. Solid-wood components do not have shading.

Wood Grain

- See reference images for wood grain direction on all door styles.

FINISH PROCESS AND CHARACTERISTICS

We put our finishes to the test. Homecrest's multi-step finish is both beautiful and durable. To test the UV/oven-cured catalyzed varnish finish, twenty-six different household chemicals and agents were used. Three cc of each chemical/agent were applied to a test door and covered for a 24-hour period. Then the agent was washed off to determine the effect it had on the finish. The results are impressive. Homecrest passed each and every test.

HOMECREST CABINETRY FINISHING PROCESS

- 1. Wood Selection** — The selection of the finest woods is the essential first step of Homecrest's finishing process.
- 2. Sanded to Perfection** — Our sanding utilizes an ultra fine grit paper, both with and against the wood grain. This process is completed on a vacuum table, allowing for a wood surface that is free of all dust particles.
- 3. Stain Application** — An environmentally safe stain is evenly applied to all surfaces. This deep penetrating stain is applied for even coverage on all profiles. On multi-step stains and glaze finishes, some non-facing surfaces (such as backs of doors, backs of panels, and matching veneer interiors) may not receive all steps noted. The resulting finish will be complementary and similar in color and have the same catalyzed top coat and cure, but may not result in the same color depth as facing surfaces.
- 4. Removal of Excess Stain** — The wood is brushed to remove excess stain, emphasizing the cabinet's natural wood grain (where applicable).
- 5. Sanding Sealer** — A coat of tough, non-yellowing, sealer is applied to protect the grain from moisture.
- 6. Drying Process** — For added durability, the sealed wood is cured to lock in the beauty of wood.
- 7. Hand-Sanded** — To achieve an ultra-smooth finish, the wood is hand-sanded one last time.
- 8. Dust Removal** — The resulting dust is removed with both manual and automatic processes, which remove loose particles from the surface of the wood.
- 9. Top Coat** — A second application of a premium quality top coat is applied to protect the wood from yellowing and other environmental elements.
- 10. UV/Oven Cure** — The top coat is UV/oven cured to guarantee the strongest, most beautiful finish.
- 11. Final Inspection** — This last, thorough, inspection ensures lasting quality and beauty. Our gift to you is that every cabinet is crafted with care.

CHARACTERISTICS OF GLAZING/PAINT

Characteristics of Glazing

A professional layer of glaze can add another layer of beauty to your cabinets. Homecrest's hand-detailed glaze application adds depth and dimension to cabinet appearance by highlighting the profile of your door style choice.

What to expect from glazed cabinetry...

- Hand-detailed glazing will leave a consistent, "penned" appearance around the profile.
- You should expect the result to yield a subtle to dramatic look based on the complexity of the cabinet design.
- Printed materials and online, electronic presentations can only do so much. It is important to both see and touch actual finished samples to ensure your satisfaction.

Characteristics of Painted Finishes

Paint may develop hairline cracks in the finish, most notable around the joints. This is a result of natural expansion and contraction of the genuine hardwoods used in the manufacturing of this product. Hairline cracks are not considered a defect in the cabinetry or finish and will not be considered a reason for product replacement. A signed Paint Finish Awareness Agreement is required for all Paint orders—found on page [182](#).

DRAWER, ROLL TRAY, AND HINGE OPTIONS

OPTION NAME	APPLICABLE CABINET GROUP	DESCRIPTION/LIMITATIONS	PRICING
Drawer & Roll Tray			
Wood Dovetail Drawer w/SoftTouch Guide (WDRW)	Cabinets with drawers	Four-sided clear coated solid hardwood drawer box with dovetailed construction and 5.2mm laminated plywood captured in drawer sides, front, and back. SoftTouch features a self-closing, full extension mechanism, with a cushion close feature which prevents the drawer from slamming. Adjustable steel undermount full extension drawer guide system is completely hidden.	Standard
Wood Dovetail Roll Trays w/SoftTouch Guide (RTPG)	Select base, tall, other room, and vanity cabinets	On cabinets without a center stile, installs specified number of roll trays (1-5). Example, for two roll trays, specify 2RTPG. On cabinets with a center stile, installs a roll tray on both sides of the cabinet. 1RTPG: 2 roll trays 3RTPG: 6 roll trays 2RTPG: 4 roll trays 4RTPG: 8 roll trays When 1RTPG is specified on a base cabinet, the roll tray is installed in the lowest position and one half-depth adjustable shelf is included. On utility cabinets for the lower section, 1RTPG includes three shelves, 2RTPG includes two shelves, and 3RTPG includes 1 shelf. No shelves for lower section are included with 4RTPG or 5RTPG. See page 46 for Roll Tray positions.	\$208 per roll tray
Furniture Board Drawer (FDRW)	Cabinets with drawers and/or roll trays	Replaces standard drawers, roll trays, and guides. 1/2" thick, four-sided construction with 3/8" thick bottom. Epoxy-coated steel drawer guides wrap around bottom 1/2" for added strength. All guides have a 75 lb. weight capacity. All drawers and roll trays must be changed in a cabinet. Not compatible with RD12 and RD15.	Deduct \$32 list per drawer/roll tray
Hinge			
Integrated SoftTouch Hinge (INTGH)	Most cabinets with doors	Factory installed, 6-way adjustable hinge with integrated SoftTouch feature.	Standard
Non SoftTouch Hinge (NSCH)	Most cabinets with doors	Non SoftTouch fully concealed cup hinge; 6-way adjustable and self-closing.	Deduct \$4 list per door

CUSTOM CHOICE CABINETS

With Homecrest's flexible manufacturing capabilities, Homecrest is able to produce cabinets and appliance cabinets & panels not listed in the price and specification guide. To utilize this process, please use the following procedures.

Cabinets

- Complete the Custom Choice Request Form and provide a detailed drawing, including dimensions of the Custom Choice cabinet. Submitting a floor plan may reduce questions that arise during the engineering process.
- Fax (800.737.7800) or email (hccr@masterbrand.com) the Custom Choice Request Form to the Homecrest Customer Service Department.
- Approved custom configurations will be quoted and assigned a Custom Choice number. This information will be emailed to you. Engineering requires 48 hours to process the request and develop a quote.
- When placing the order, please include the Custom Choice number on the Homecrest Order Form.

Notes

- Custom Choice items cannot be changed or cancelled once the order is placed.
- If specifications are altered, the Custom Choice item will need to be quoted again.
- Examples of custom cabinet configurations can be found on pages 42-44.

Appliance Cabinets & Panels

- Appliance specifications are required from the designer.
- Fax (800.737.1500) or email (hccr@masterbrand.com) the Custom Choice Request Form to the Homecrest Customer Service Department.
- Engineering requires 48 hours to process the request and develop a quote. To expedite this process, please use the Custom Request Forms on pages 40 & 41.

CUSTOM CHOICE PRODUCT GUIDELINES

Cabinet Dimensions

- Frames cannot be larger than 42" x 60" or 60" x 42".
- Adjustable shelves not available in cabinets wider than 36" without a center vertical.
- Maximum depth on tall cabinets and cabinets with drawers is 24".
- Maximum width:
 - bases - 60"
 - walls - 48"
 - talls - 36"
- Maximum height is 96".
- Frame angles cannot be altered or changed.

Appliance Panels

- To accommodate larger refrigerators, appliance panels are available up to 36" wide and 84" high.
- Dover door style will convert to a flat center panel when larger than 24" wide or 70" tall.
- Larger appliance panels are not available in Bishop, Chalet, Fyfer, Haylan, Highland, Joplin, Piper, Wexford, and Welzin door styles.

Doors (see pages 180-181 for custom door SKUs)

- Custom doors are no longer required to run through the Custom Choice program. Fill out the section on the standard order form and they will be processed with your normal order.

Drawer Fronts

- Custom Drawer Fronts not available in Chalet, Fyfer, or Piper. Limitations exist on all styles.
- Custom drawer fronts are not available for cabinets not manufactured by Homecrest.
- Mixed drawer fronts on a cabinet are not available.

Drawers

- Drawers & Roll Trays available in existing sizes only.
- Minimum depth for drawers is 12".
- Maximum depth for drawers is 24".

Other

- Applied mouldings not available.
- Countertops not available.
- Unfinished cabinets or finishes not in our standard offering not available.

Custom Request Form

Office Use Only

Phone # 1-855-722-2148
Fax # 1-800-737-1500

Email: hccr@masterbrand.com

Custom Cabinet Requests should be submitted 48 hours prior to order placement.

A Custom Number and List Price will be emailed to you.

The Custom Number and Quantity should be included on the order.

Description of Request

Complete and accurate information will help ensure a timely turnaround and assist Homecrest Cabinetry in determining quote feasibility.
Homecrest Cabinetry maintains authority to approve or deny Custom Choice™ requests.

Custom Appliance Cabinets and Panels Worksheet.

This worksheet must be submitted with Cover Sheet for quoting to Customer Service.

Note: All preferences will be considered and standard cabinet components will be used. The microwave/oven opening size will determine top cabinet size.

Microwave Cabinet

Overall cabinet size:

- A. _____ width
- B. _____ height
- C. _____ depth
1. Top cabinet (preferred height)
- D. _____ height
2. Microwave (opening required)
- E. _____ width
- F. _____ height
3. Actual microwave specs
- G. _____ width
- H. _____ height
4. Overall trim kit size
- I. _____ width
- J. _____ height
5. Drawer height
- K. _____ height

Extended (past cabinet bottom)
Microwave Shelf -
for 12" deep wall cabinet only.
_____ yes _____ no

Will microwave be
(built in) or (set in)?
Please circle.

Oven Cabinet

Note: Oven cutouts are used to determine cabinet configuration. Whenever possible BD30D drawers will be used unless otherwise specified. Finished oven width may need to be cut on job site.

Cabinet Size:

- A. _____ width
- B. _____ height

Wish List:

1. Top cabinet (preferred)
- C. _____ height
2. Microwave opening (option 2 only: will microwave be built-in or set-in?)
- D. _____ width
- E. _____ height

Wish List determined by this:

3. Oven opening (no standard)
- F. _____ width
- G. _____ height
4. Overall trim kit size
- H. _____ width
- I. _____ height
5. Bottom cabinet
- Prefer doors: _____
- Doors: _____ yes or no _____
- Number of drawers _____

Single Oven
Option 1

Oven/Microwave
Combination
Option 2

Refrigerator Panels

Manufacturer Backer Panel Sizes Required: Manufacturer Door Sizes Required:

1. A. _____ width
- B. _____ height
2. A. _____ width
- B. _____ height
3. A. _____ width
- B. _____ height

Grille (Top or Bottom) -

Optional for all configurations

4. A. _____ width
- B. _____ height

Custom Appliance Cabinet:
Using your appliance specifications, create a custom microwave/oven unit from a universal oven cabinet.

REQUEST A QUOTE

Custom Appliance Cabinet:
Using your appliance specifications, create a custom microwave/oven unit from a universal oven cabinet.

STORAGE IDEAS

REQUEST A QUOTE

Custom Utility Cabinet:
Turn often wasted corners of any master bath into closet or utility cabinet storage.

REQUEST A QUOTE

Shelf Units:
Enhance the open shelf unit with cabinet doors. Field applied Soffit A moulding to any of the shelves creates a plate rail.

CABINET DIMENSIONS

- Shown are the dimensions for the stiles and rails of Homecrest cabinets. The opening sizes change based on the width and height of each individual cabinet, while the stile and rail sizes remain fairly consistent.
- To determine the horizontal opening measurement, subtract the stiles (and center stile on 39" wide and larger) from the cabinet width. To determine the vertical opening, subtract the rail measurements from the cabinet height.
- The face frame dimension is given for base, vanity, desk and tall units. To determine the overall cabinet height, add Homecrest's standard 4 1/2" high toekick to the vertical dimension of face frame.

DOOR SIZING AND REVEALS

- **Traditional Overlay Doors:** The doors and drawer fronts overlay the face frame 1/2", exposing 1" of the frame both on the stile and rail members. Typical wall and base cabinets with a center stile expose 2" of that stile.
- **Modified Full Overlay Doors**
(Wall and Tall Cabinets): The door and drawer fronts overlay the frame, exposing 1/4" on the bottom rail and right and left stile. One full inch is exposed on the top rail of wall and tall units. Typical wall and base units with a center stile expose 1/2" of that stile.
(Base Cabinets): The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.
- **Full Overlay Doors:** The door and drawer fronts overlay the frame, exposing 1/4" on the top and bottom rails and right and left stiles of base cabinets. Typical base units with a center stile expose 1/2" of that stile.
- **Exceptions on Face Frame Reveals:** Oven units have 3" stiles and 9" intermediate rails (designed for universal flexibility of cut-out options) that create various reveals.
- Blind corner wall and base cabinets expose different center stiles reveals. Diagonal corners also vary.

INSTALLATION HEIGHT REQUIREMENTS

Height of ceiling needs to be considered for installation of tall cabinets. Cabinet height below includes toekick area:

Cabinet Height	Minimum Installation Height for Cabinet Depth				
	12"	15"	18"	21"	24"
84"	84 7/8"	85 11/32"	85 15/16"	86 19/32"	87 3/8"
87"	87 27/32"	88 5/16"	88 27/32"	89 1/2"	90 1/4"
90"	90 13/16"	91 1/4"	91 13/16"	92 7/16"	93 5/32"
93" *	89 5/16"	89 25/32"	90 5/16"	90 31/32"	91 23/32"
96" *	92 5/16"	92 3/4"	93 9/32"	93 29/32"	94 5/8"

*Separate pedestal base included with cabinet to be installed after cabinet is in an upright position.

HOMECREST CABINETRY'S DESIGN CHECKLIST

CONSTRUCTION OPTIONS

Cabinets with plywood ends (APU or PEU) are unfinished on the exterior; consider the following solutions for exposed exterior ends:

- ☐ Order finished ends (FB).
- ☐ Order Authentic Ends (AUTHB, AUTHL, AUTHR).
- ☐ Modify exposed cabinet ends to FPEB.
- ☐ Apply 1/4" veneer skin to hide 1/4" reveal. This will allow the ends to age uniformly with the rest of the kitchen and will make it flush.
- ☐ Apply decorative door kit (WDOP, BDOP, TDOP). This kit includes 1/4" veneer skin, decorative doors, and screws for field installation.

WOOD AND FINISH CHARACTERISTICS

Review specific details with the customer:

- ☐ Mineral Streaks, Birdseye Dots, Grain Variations, especially Hickory.
- ☐ Color Variations/Darkening.
- ☐ Finish Variations, hairline cracks may develop at frame joints on painted frame.
- ☐ Underside of cabinets are natural maple laminate. Use light rail or cabinet panel edge and skin to hide, especially when designing with peninsula wall cabinets.

ORGANIZATION

Review storage and usage needs with Customer.

- ☐ Cooking Solutions:
 - Wall Spice Rack Cabinet
- ☐ Storage Solutions:
 - SuperCabinet™
 - Pegged Dish Organizer
 - Wall Message Center
- ☐ Clean-up Center:
 - Base Wastebasket

CLEARANCES

- ☐ Add fillers between end cabinets and walls on full/modified full overlay door styles.
- ☐ Allow space between door/window trim and end cabinets for countertop and top moulding overhang.
- ☐ Include refrigerator door hinges in overall refrigerator height when placing cabinets above it.

Maintain a minimum clearance of 3" by pulling blind corners as follows:

- ☐ Full/Modified Full Overlay: 1 1/4", Traditional Overlay 1/2". (More is needed in certain situations such as when adjacent to an appliance or when using oversized pulls or knobs.)
- ☐ Allow sufficient clearance (3") on each side of accessory cabinets (such as roll-out trays, etc). Doors on these cabinets must open fully for accessories to be functional.
- ☐ Ensure the height between the cooktop and range hood is 24" to meet NKBA guidelines.

Qualify customer carefully on upper cabinet/microwave advantages/disadvantages as follows:

- ☐ Minimum of 18" from cooktop to upper cabinet/above the range microwave which allows for easy access to either, but less room over back burner.
- ☐ Minimum of 21" from cooktop to upper cabinet/microwave which allows for access to large pots on back burner of cooktop, but longer reach to microwave.

FILLERS

- ☐ Place fillers toward end of run where least conspicuous if needed.
- ☐ Attach overlay fillers on top of the base, wall, or tall fillers when using full overlay door styles to maintain a consistent reveal. Don't forget to include blind corner fillers.
- ☐ Add a filler at least 6" wide to accommodate a decorative onlay when the filler is used as valance.

VARYING HEIGHTS AND DEPTHS

- ☐ Increase the depth of a wall cabinet run when you increase the height (so moulding on adjacent cabinet will kill into the side of the taller cabinet).
- ☐ Skin the sides of tall cabinets to 1) hide the seam between the toekick pedestal and the cabinet, 2) keep adjacent base and wall cabinets out from reveal of tall cabinet.
- ☐ Add increased depth on tall end panels for a built-in look for deep refrigerators.
- ☐ Account for the additional support needed for wall cabinets with a depth of 18" or greater. This can be achieved by installing end panels.

MATCHING INTERIOR CABINETS/GLASS OPTIONS

- ☐ Verify cut-for-glass or mullion door option is available on desired cabinet size. (See pages 36-37 for available cut-for-glass/mullion door sizes.)
- ☐ Verify glass insert option is available for desired cut-for-glass door size chosen.
- ☐ Verify matching interior option has been selected for all open or glass cabinets.
- ☐ Verify mullion door lite grid matches customer expectations.

MOULDINGS

- ☐ Verify correct amount of crown moulding has been ordered.
- ☐ Order toekick caps.
- ☐ Order extra scribe.

ISLANDS AND PENINSULAS

- ☐ Consider standard height bars are 34 1/2" tall and require 19" knee space. Raised bars are 42" tall.
- ☐ Consider base peninsula cabinets (P) are 24 1/4" deep and require 12" of knee space. Use back panels/doors to flush non-P cabinets with P cabinets.
- ☐ Use outside corner moulding if a skin is exposed on the back of the island.

APPLIANCES

- ☐ Note for all consumers, appliances are not included with any cabinetry product.
- ☐ Do not place dishwashers next to diagonal front cabinet (interference) or next to a range (no countertop support).
- ☐ Verify refrigerator door has enough clearance to open beyond 90 degrees so refrigerator drawers can be utilized. Refer to appliance manufacturer's specs.
- ☐ Add TF696FH, as it may be required to frame around built-in microwave ovens and other built-in items. Refer to appliance manufacturer's specs.
- ☐ Order appliance panels.

MISCELLANEOUS

- ☐ Order full size touch-up kit.

kitchen planning guidelines

DOOR/ENTRY

- Door opening should be at least 32" wide, requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- Entry door should not interfere with safe appliance operation or appliance doors.

DISTANCE BETWEEN WORK CENTERS

- With three work centers, the total distance traveled should not be more than 26' with no single leg of the triangle less than 4' or more than 9'.
- With more than three work centers, each additional travel distance to another work center should be no less than 4' or more than 9'. Each leg is measured from the center-front of the appliance/sink. No work triangle leg should intersect an island/peninsula by more than 12".

SEPARATING WORK CENTERS

- A tall obstacle should not separate two primary work centers. A properly recessed tall corner unit is acceptable.

WORK TRIANGLE TRAFFIC

- Major traffic patterns should not cross through the basic work triangle.

WORK AISLE

- The work aisle should be at least 42" for one cook and at least 48" for multiple cooks.

WALKWAY

- The walkway width should be at least 36".

TRAFFIC CLEARANCE AT SEATING

- Allow 32" of clearance from the table to wall/obstacle if no traffic passes behind a seated diner. If traffic passes behind the diner, allow at least 36" to edge past or 44" to walk past.

SEATING CLEARANCE

- 30" high tables/counters should allow a 24" wide by 18" deep space for each seated diner and at least 18" knee space.
- 36" high counters should allow a 24" wide by 15" deep space for each seated diner and at least 15" kneespace.
- 42" high counters should allow a 24" wide by 12" deep space for each seated diner and at least 12" kneespace.

CLEAN-UP/PREP SINK PLACEMENT

- With only one sink, locate it adjacent to or across from the cooking surface and refrigerator.

CLEAN-UP/PREP SINK LANDING AREA

- Include at least a 24" wide landing space on one side of the sink and 18" on the other.
- If all the countertop at the sink is not the same height, plan a 24" landing space on one side of the sink and 3" of countertop frontage on the other, both at the same height of the sink.

PREPARATION/WORK AREA

- Include a section of countertop at least 36" wide x 24" deep next to the sink for a work area.

DISHWASHER PLACEMENT

- Nearest edge of dishwasher should be within 36" of nearest edge of sink. Provide at least 21" of standing space between the edge of the dishwasher and countertop frontage/appliances/cabinets which are placed at a right angle to the dishwasher.

WASTE RECEPTACLES

- Include at least 2 waste receptacles, one near the sink and the other nearby for recycling.

AUXILIARY SINK

- Provide at least 3" of countertop frontage on one side of the auxiliary sink and 18" on the other side, both at the same height as the sink.

REFRIGERATOR LANDING AREA

- Include at least 15" of landing area on the handle side of the refrigerator, 15" on either side of a side-by-side refrigerator, 15" of landing space which is no more than 48" across from the front of the refrigerator, and 15" above or adjacent to any under-counter style refrigerator.

COOKING SURFACE LANDING AREA

- Include a minimum of 12" of landing area on one side of the cooking surface and 15" on the other.
- If cooking surface is at a different countertop height than the rest of the kitchen, then the 12" and 15" landing areas must be the same height as the cooking surface.
- For safety reasons, in an island or peninsula situation, the countertop should extend a minimum of 9" behind the cooking surface if the counter height is the same height as the cooking surface.

COOKING SURFACE CLEARANCE

- Allow 24" between the cooking surface and a protected noncombustible surface above it.
- At least 30" of clearance is required between the cooking surface and an unprotected/combustible surface above it.
- If a microwave/hood combination is used, then the manufacturer's specifications should be followed.

COOKING SURFACE VENTILATION

- A correctly sized, ducted ventilation system is recommended for all cooking surface appliances. The recommended minimum is 150 CFM.
- Code requires that the manufacturer's specifications be followed. Minimum exhaust rate for a ducted hood is 100 CFM and must be ducted to the outside.
- Make-up air may need to be provided. Refer to local codes.

COOKING SURFACE SAFETY

- Do not locate cooking surface under an operable window.
- Window treatments above cooking surface should not use flammable materials.
- Place a fire extinguisher near the kitchen exit away from cooking equipment.

MICROWAVE OVEN PLACEMENT

- The ideal location for the bottom of the microwave is 3" below the principle user's shoulder, but no more than 54" above the floor.

MICROWAVE LANDING AREA

- Provide at least 15" above, below, or adjacent to the handle side of a microwave oven.

OVEN LANDING AREA

- Include at least 15" next to or above the oven.
- A 15" landing area that is not more than 48" away is also acceptable as long as the oven does not open into a walkway.

COMBINING LANDING AREAS

- If two landing areas are adjacent to one another, determine a new minimum for the two by taking the longer of the two and adding 12".

continued

kitchen planning guidelines (continued)

COUNTERTOP SPACE

- A total of 158" of countertop frontage, 24" deep, with at least 15" clearance above is needed to accommodate all landing, preparation, work, and storage areas.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

STORAGE

- The recommended total shelf/drawer frontage for a small kitchen (less than 150 square feet) is 1400", for a medium kitchen (151 to 350 square feet) is 1700", and for a large kitchen (greater than 350 square feet) is 2000".

Sizes:	S	M	L
Wall	300"	360"	360"
Base	520"	615"	660"
Drawer	360"	400"	525"
Pantry	180"	230"	310"
Misc.	40"	95"	145"

- The totals for wall, base, drawer, and pantry shelf/drawer frontage can be adjusted upward or downward as long as the recommended total stays the same.

STORAGE AT CLEAN-UP/PREP SINK

- The recommended total for a small kitchen is 400", a medium kitchen is 480", a large kitchen is 560", and should be located within 72" of the centerline of the main clean-up/prep sink.

CORNER CABINET STORAGE

- At least one corner cabinet should include a functional storage device.

ELECTRICAL RECEPTACLES

- GFCI (Ground-Fault-Circuit-Interrupter) protection is required on all receptacles servicing countertop surfaces within the kitchen.

LIGHTING

- Every work surface should be well illuminated. At least one wall switch-controlled light must be placed at the entrance.
- Window/skylight area, equal to at least 8% of the total square footage of the kitchen, or a total living space which includes a kitchen, is required.

bathroom planning guidelines

DOOR/ENTRY

- Doorway opening should be at least 32", requiring a minimum 2' 10" wide door.

DOOR INTERFERENCE

- The door area should include clear floor space for maneuvering which varies according to the type of door and the direction of the approach.

CEILING HEIGHT

- Bathroom floor to ceiling minimum height is 80". A shower or tub with a shower head shall have a minimum floor to ceiling height of 80" above a minimum area 30" x 30" at the shower head.

CLEAR SPACE

- Plan a clear space of 30" from the front edge of all fixtures to any opposite bath fixture, wall, or obstacle.
- A minimum space of at least 21" is required in front of a lavatory, toilet, bidet, and tub, with a 24" minimum space in front of a shower entry.

SINGLE LAVATORY PLACEMENT

- The distance from the centerline of the lavatory to the sidewall/tall obstacle should be at least 20".
- The minimum distance required is 15". The minimum distance required between a wall and the edge of a lavatory is 4".

DOUBLE LAVATORY PLACEMENT

- The distance between the centerlines of two lavatories should be at least 36".
- The minimum distance required is 30".
- The minimum distance required between the edges of two lavatories is 4".

LAVATORY/VANITY HEIGHT

- The height for a lavatory varies from 32" to 43" to fit the user.

COUNTERTOP EDGES

- Clipped or round corners, rather than sharp edges, are recommended on all counters.

SHOWER SIZE

- The interior shower size should be at least 36" x 36". The minimum interior shower size required is 30" x 30".

STORAGE

- Provide adequate, accessible storage for toiletries, bath linens, grooming and general bathroom supplies.
- Storage of frequently used items should be 15" to 48" above floor.

ELECTRICAL RECEPTACLES

- All GFCI receptacles should be located at electrical appliance points of use.

Load bearing floors and shelves can support 15 lbs. per square foot. Warranty does not cover overloading beyond this point.

- Utilizes doors from 30" and 36" high wall cabinets. Grain on center panels will run horizontally and door rail configuration on non-mitered doors will be unique from adjacent cabinet doors. See page 8 for more details.
- Cabinet may utilize one or two lift mechanisms depending on door size and weight. Door lift mechanism tension can be field adjusted.
- Depth can be reduced to a minimum of 9".
- Door will open a maximum of 105° due to hinges. For applications close to a ceiling, door angle can be restricted to 86° with a Hinge Angle Restriction Clip (INTGHRSTRCLIP, see page 179).
- Lift mechanisms and mounting brackets will be visible if used with transparent textured glass panels.

Wall Corner Cabinets

- Wall corner cabinets may be installed flush to the wall (left) or pulled 3" away from wall (right) to accommodate odd dimensions in a kitchen design. In either case, the adjoining run of 12" wall cabinets plus a 3" filler will butt against the solid-wood panel.
- When a cabinet is "pulled" it will use proportionally more wall space, for example, a 30" wide WC pulled 2" will use 32" of space.
- The BL or BR in the cabinet's nomenclature indicates the location of cabinet void.
- Blind side of wall corner cabinets cannot be installed next to a range hood or microwave shelf unit due to door interference.

NOTE: All outside stiles are 1 1/2" wide

Model	A Recommended Space	B Max. Pull*	C Max. Space	D Face Frame Opening	E* Full/Modified Full Overlay At Min. At Max.	E Traditional Overlay At Min. At Max.	F Actual Cabinet
WC24..	24"	5"	29"	7 1/2"	1 3/4" 6 3/4"	2 1/2" 7 1/2"	24"
WC27..	27"	4 1/2"	31 1/2"	9"	3 1/4" 7 3/4"	4" 8 1/2"	27"

¹APU sink front bottoms will be natural maple.

Base Corner Cabinets

- BCs use the wall space the nomenclature implies and may be pulled up to 3" to accommodate odd dimensions in a kitchen.
- Remember to use 3" filler on adjoining cabinets.
- The adjoining run of cabinets will cover the void.
- The L or R in the cabinet nomenclature indicates the location of the void to ensure clearance.
- It is not recommended to place BC cabinets next to appliances where any face component is deeper than 27".

103

Model	A Recommended Space	B Max. Pull*	C Max. Space	D Face Frame Opening	E* Full/Modified Full Overlay At Min.** At Max.	E Traditional Overlay At Min.** At Max.	F Actual Cabinet	Full/Modified Full Overlay Door Width	Traditional Overlay Door Width

- 90", 93", and 96" tall include full depth adjustable shelves in upper section:
90" and 93" tall - one shelf
96" tall - two shelves
- Toekick assembly shipped unattached on 93" and 96", unless FTK options are selected.
- Oven cavity is standard interior.
- For built-in double oven applications, remove drawer as needed.
- All top and bottom cross rails are 1 1/2" wide.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 18".
- Oven Installation Kit included for 24" deep cabinets and has a 400 lb. weight limit.
- Oven cabinets feature an open back in cut-out area designed to improve field appliance installation.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full/modified full overlay and 1" for traditional overlay for trim kit face clearance.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

- Designed for use with separate built-in microwave above, built-in oven below. For built-in double ovens, see pages 124-127.
- Uses face mount hinges, doors and drawer fronts have a consistent width reveal for full/modified full overlay (1/4") and traditional overlay (1").
- On 93" and 96" tall, one full depth adjustable shelf included.
- Toekick assembly shipped unattached on 93" and 96", unless FTK options are selected.
- Oven cavity is standard interior.
- All top and bottom cross rails are 1 1/2" wide.
- All cabinets have 3" stiles on frame.
- Be sure to confirm a heat shield is built into your appliance by the manufacturer or install the heat shield included with your appliance. Heat shields are sold separately as an accessory.
- Depth can be reduced to a minimum of 18".
- Oven Installation Kit included for 24" deep cabinets and has a 400 lb. weight limit.
- Maximum cut-out dimension will allow 1/4" reveal for doors and drawer fronts on full/modified full overlay and 1" for traditional overlay for trim kit face clearance.
- Oven cabinet cut-out is shaded in gray and is cut out on job site.
- If the maximum height (as shown in gray) is cut out, the drawer will no longer be included. See chart below for maximum cut-out allowed if you want to keep the drawer.

Touch Latch

TOUCLATCH	31
------------------	----

- Nylon gray mechanism with bumper tip.
- Face frame will need to be field drilled for insertion of the TOUCLATCH, requires 25/64" (10mm) drill bit.
- Can be field adjusted for door gap depth, no tools required.
- For use on full/modified full overlay door styles only.
- Requires a soft touch to open the door, and door must be pushed closed to reset the TOUCLATCH mechanism.
- Only for use on hinged doors, and can be used without decorative hardware. Not compatible with non-hinged doors. For drawers, pull-outs, and other non-compatible cabinets, PULLH105, PULLH106, and PULLH107 are recommended (see page 172).

D = Diameter
P = Projection (Hardware Depth)
L = Length
W = Width
B = Base
C/C = Center to Center

Installation screws included with each hardware piece.
Breakoff screws available for purchase separately as BRKOFFSCREW, see page 179.
Larger pulls may not be compatible with 5-piece drawer fronts on face frame openings of 9" wide or less.
See page 27 for 5-piece drawer front dimensions when specifying decorative hardware.

CabMat™

CABMAT30	208
CABMAT33	208
CABMAT36	208

- CabMat™ is designed to capture spills and is removable for cleaning.
- Not trimmable. Can also be used in wider cabinets but will create a small void of unprotected area along the end panels.

**CabMat™ Vanity**

CABMATV24	208
CABMATV30	208
CABMATV36	208

- CabMat™ is designed to capture spills and is removable for cleaning.
- Not trimmable. Can also be used in wider cabinets but will create a small void of unprotected area along the end panels.

**Cooking Utensil Divider**

CUDD24	240
CUDD30	268
CUDD36	295

- Pre-assembled natural wood drawer insert.
- Only compatible with SoftTouch wood drawers.

**Cutlery Divider Wood Tiered Drawer**

WTCD15	463
WTCD18	478
WTCD21	498
WTCD24	515

- Replaces standard drawer. Uses existing cabinet member drawer hardware.
- Only compatible with PG SoftTouch guide.
- Requires field installation of drawer front.
- For use with 24" deep cabinets only.
- Exterior WTCD drawer box height is 3 3/4", interior height of top tier is 1 5/8", and interior height of bottom tier is 1 3/8".
- Top divider slides front-to-back.

Model	Application
WTCD15	15" Base

Straight Heat Shields

OHS	100
OHSS	120

- OHS is a pair of 1/16" thick, white metal shields.
- OHSS is a pair of 1/16" thick, stainless steel metal shields.
- Heat Shield is used to deflect heat from self-cleaning ovens away from cabinet doors and drawer fronts.
- For use when additional 1/8" can be added to the oven manufacturer's recommended space requirements.
- Installs on the side of the face frame of each cabinet adjacent to the oven.

**Oven Installation Kit**

OVENINSTALLKIT	52
-----------------------	----

- Recommended for supporting built-in appliances such as ovens, microwaves, and warming drawers. Refer to appliance manufacturer specifications for installation requirements.
- Weight limit is 400 lbs. per pair.

**Pegged Dish Organizer**

PDO (8 Pegs & Board)	345
PDOPOSTS (4 Pegs)	87

- Recommended for use in 36" wide Two Drawer Base (2BD) and Three Drawer Base (3BD) cabinets, trimmable for cabinets less than 36" wide. Not recommended for use in roll trays.
- Pegged Board is 3/8" thick.
- 29 15/16" x 19 1/2"

**Spice Rack — Pull-down**

SPD18	209
--------------	-----

- Spice Rack Pull-down dimensions: 8 15/16" high x 14 13/16" wide x 10 5/16" deep.
- Spice Rack Pull-down requires 3 3/4" below the bottom edge of the cabinet and 9 1/4" in front of the cabinet.
- For use in a minimum 15" wide opening (recommended for use in 18" wide cabinets).
- Maximum Weight Capacity: 15 lbs.
- Must be installed on the floor of the cabinet. Cannot be installed on an adjustable shelf.

**Tilt-out Trays, Plastic**

TOT15	94
TOT18	98

- Kit includes 2 white trays and tilt-out hinges.
- SB39-SB48 have 2 fixed panels.
- SB30B-SB36B have 1 long fixed panel.
- SB21-SB27B may only accept one tray.

Model	Size	Application
TOT15	11" w x 2" d x 3 3/4" h	SB30B, SB33B
TOT18	14 1/4" w x 2" d x 3 3/4" h	SB21, SB24, SB24B, SB27B, SB36B, SB39, SB42, SB45, SB48

**Tray Divider Kit**

WTD	46
------------	----

- WTD: Includes 1 divider, 3 clips, and 3 screws.
- Tray divider is chrome.

**Tray Roll-out Divider**

TDR012	291
TDR015	324

- TDR012: 2 removable dividers (3 compartments).
- TDR015: 3 removable dividers (4 compartments).
- Includes guides.
- 3/8" plywood construction.
- TDR012 fits B12.
- TDR015 fits B15.
- Not compatible with roll tray option.

**Wine Glass Holders**

SWR30 (7 slots)	244
SWR36 (8 slots)	298

- Maximum wine glass base is 3" diameter.
- May be trimmed to fit smaller cabinets.

- PGLOCKCLIP used with Softouch drawer guides (15"-24" deep).
- PGLOCKCLIPNRW used with Softouch drawer guides on cabinets with drawers with a face frame opening of 7 1/2" or less (15"-24" deep).
- Sold in pairs.

False Panel Clips

FIXEDFRTCLIP5	8
PFIXEDFRTCLIP5	8

- Clips come in pairs of two.
- Use to secure false front on sink base.

**Roll Tray Plug In Brackets**

RTFSPACER	44
RTPGSPACER	42

- For use with roll tray hardware to prevent interference with door hinges. Also included in roll tray hardware kit.
- RTFSPACER for use with roll trays with FDRW modification.
- RTPGSPACER for use with standard roll trays.
- Includes four end panel brackets, two vertical stile brackets, and screws.

Hinges**INTGHPHINGE**

27

- Integrated SoftTouch.
- 6-way adjustable.
- 1/2" Traditional overlay 107° hinge.
- For use on all Traditional overlay cabinets not specified by other hinges.
- For use on full overlay styles: Angle Base Cabinets, Diagonal Wall and Base Cabinets, and 36" Corner Sink Bases and Fronts.
- Sold in pairs.

**INTGHFOHINGE**

27

- Integrated SoftTouch.
- 6-way adjustable.
- Full overlay 107° hinge.
- For use on all full overlay cabinets not specified by other hinges.
- Sold in pairs.

**INTGHSRFMTHG**

27

- Integrated SoftTouch.
- 4-way adjustable.
- Full overlay face-mount 107° hinge.
- For use on OSB, OD and OMC, and 36"~42" high WBMW cabinets.
- Sold in pairs.

**PO.5HINGE**

20

- 6-way adjustable.
- 1/2" Traditional overlay 107° hinge.
- For use on full overlay styles with NSCH modification: Angle Base Cabinets, Diagonal Wall and Base Cabinets, and 36" Corner Sink Bases and Fronts.
- Sold in pairs.

**FO1.25HINGE**

20

- 6-way adjustable.
- Full overlay 107° hinge.
- For use on all full overlay cabinets with NSCH modification and not specified by other hinges.
- Sold in pairs.

**SURFMTHINGE**

11

- 4-way adjustable.
- Full overlay face-mount 107° hinge.
- For use on OSB, OD and OMC, and 36"~42" high WBMW cabinets with NSCH modification.
- Sold in pairs.

**BERDR-DRHINGE**

70

- 90° Corner Self-closing Center Hinge.
- For use as center hinge on BLS, BC, BER, and WCER cabinets.
- Connects bi-fold doors together.
- Sold in pairs.

**BERDR-FRMHINGE**

60

- 170° Hinge.
- For use on BSC, BLS, BC, BER, and WCER cabinets.
- Connects bi-fold doors together.
- Sold in pairs.

**MIRRORHINGE**

11

- Mirror hinge.
- For use on TV and MC cabinets.
- Sold in pairs.

**Hinge Angle Restriction Clip****INTGHRSTRCLIP**

11

- For use in applications with cabinets installed at varying depths to prevent the door damage caused by opening into an adjacent cabinet.
- Restricts hinges to 86° opening capability.
- Works only with the INTGHPHINGE and INTGHFOHINGE.
- Not recommended for cabinets with roll trays specified in Traditional overlay styles.
- Sold in pairs.

**Hinge Shims****HINGESPACER**

16

- Install between the face frame and hinge to allow additional adjustment of doors. Can be used to reduce gap between butt doors.
- Each shim is 1/32" thick and can be stacked to achieve desired overlay reduction.
- Pack of 5 metal shims.
- Compatible with all hinges except face-mount.

**HNGSPCRDR**

33

- Intended for door adjustment in field to reduce appearance of a slight warp in a door. Insert against the door, behind cup of hinge, opposite of warp.
- HNGSPCRDR sold in packs of five.

**Miscellaneous Parts**

BRKOFFSCREW (pkg. 25)	6
DOORBUMPER25 (pkg. 25)	7
GLASSRETCLIP	17
INSTLSCREW4 (pkg. 4)	5
INSTLSCREW100 (pkg. 100)	18
SHELFCLIP24 (pkg. 24)	11

- BRKOFFSCREW is a pack of 25 breakaway screws for use with decorative hardware pulls and knobs.
- GLASSRETCLIP: 6 retainer clips for use with glass inserts in mullion and cut-for-glass doors.
- INSTLSCREW4 and INSTLSCREW100 are screws for cabinet installation through the cabinet back to the wall studs (includes a pack of 4 or 100).
- SHELFCLIP24 are 3mm steel pins with clear plastic shoulders.

**SHELFCLIP24****Doors and Drawer Fronts**

Door For Any Cabinet Less Than 18" High	252

	DOORHNG	Mitered Styles	8" to 24"	10" to 70"

*Any door with a minimum width dimension less than 10" will receive a flat center panel.

HOMECREST[®] C A B I N E T R Y

Thank you for choosing a paint finish from Homecrest Cabinetry. Because your satisfaction is important to us, we want you to be aware of the unique characteristics of painted finishes that may be quite different from other cabinetry finishes.

Characteristics of Paint Finishes

Paint finishes are different from standard wood finishes. On all wood products, expansion and contraction are typical due to changes in climate conditions. Due to this normal movement, paint finishes may develop slight separation lines, finish breaks and seam lines. These will be most notable at stile, rail and panel joints. Joint separations may become more noticeable over time and through season changes.

All paint finishes first receive a primer coat designed to provide optimum fill and leveling of the surface. This provides an even base for the color and finish coats.

Seam lines and finish breaks are normal characteristics of paint finishes and should not be considered a reason for product replacement. Over time, there may be a slight color shift in the finish, due to exposure to natural and artificial light.

Example of door front joint separation

Example of door front joint separation

Example of door end joint separation

I have read and understand the statements above and agree that the characteristics of paint finishes from Homecrest Cabinetry are acceptable. I understand that neither Homecrest Cabinetry or the Homecrest Cabinetry Dealer listed below is responsible in the event that these characteristics are later found to be less desirable than expected.

Orders for Paint finishes will not be confirmed without a signed agreement.**

Congratulations on your selection of Homecrest cabinetry in Rustic Hickory. Because of its unique characteristics Rustic Hickory is quite different from other wood types you may be familiar with. Your satisfaction is important to us, and we want you to fully understand the characteristics that make Rustic Hickory so distinctive.

It is important to realize that the beauty of wood cabinetry comes from the natural qualities of wood itself. Rustic Hickory is characterized by its nearly white to dark brown dramatic color variations with wild flowing green patterns and may contain a variety of pin holes, open and closed knots of various sizes and colors, small cracks, bird pecks, mineral streaks, and grain variation. Some knots may have small holes through the panel. In addition, the wood will contain color difference caused by variations in minerals found in the soil, creating visible mineral tracks. However, those characteristics that might compromise the structural integrity of the door will not be included.

Sound Closed Knot (not moveable) – Expected in Rustic Hickory up to approximately 3” diameter.

Sound Knot with Cracks – Expect sound knots with open cracks up to approximately 1” in length.

Open Knot (through door) – Expected in Rustic Hickory with open area up to approximately 3/4” diameter.

Note: 3/4” diameter is about the size of a penny. Holes created by open knots pass completely through the door and are desirable for this rustic look.

Unsound Knot (moveable core) – Not to be expected.

Knot Cluster (cluster of tight sound knots) – To be expected in Rustic Hickory.

Worm Holes/Pin Holes (can go through door) – Can be expected on Rustic Hickory up to approximately 1/4” diameter.

Worm Tracks – Can be expected on Rustic Hickory in sizes up to approximately 1/8” wide by 8” long.

Rustic Hickory as described is featured for doors and drawer fronts. Other areas of the product will utilize standard Hickory. Customers should expect a much lower occurrence of rustic characteristics in these other areas. Also, the natural characteristics mentioned occur randomly in Rustic Hickory. All doors and drawer fronts will contain some combination of the common Rustic Hickory markings; however, it will be uncommon to find all markings on any single piece.

The natural characteristics of wood described above and variations in grain patterns and color are not considered reasons for product replacement. We mention these characteristics because neither Homecrest nor your Homecrest dealer can be responsible for these conditions and variations.

Accordingly, we ask that the following agreement be signed for Rustic Hickory orders.

I have read the foregoing and find the characteristic variations of wood with Rustic Hickory are desirable.

As such, I agree not to hold Homecrest and/or the Homecrest dealer listed below responsible in the event that these characteristics are later found by me to be less desirable than I had expected.

Homecrest® Express Response™ Program

Our commitment to Channel Partners, Designers and Customers

Purpose: The Homecrest® Express Response program is used to expedite orders when customers need product faster than normal lead time to correct issues with an existing order. Below is an overview of the Express Response program and what you can expect from the Homecrest commitment to superior service.

Express Response Guidelines

- Eligible orders must be associated with a previous order number.
- Lead time calculation is based on receipt of a clean order. Clean orders are orders in which all information is provided and accurate.
- There is no additional upcharge for Express Response.
- There are no cancellations or returns once an Express Response order is received.
- Due to the nature of special orders and appliance panels, they are excluded from Express Response and will be processed as a standard lead time order.
- Express Response is available within the continental United States. Should Alaska, Hawaii or international shipments be required, customer service representatives are ready to assist by providing shipping information and determining lead times.

Lead Times

15 business days or less from order to delivery (channel partner):

- Items shipped via LTL, Parcel ground or truckload

Questions? If you have questions that aren't answered here, contact your Customer Service team.

Discontinued Product Policy

60 days minimum notice to customers announcing the discontinuation of a product line.

Product will no longer be available for order after the discontinuation date. Only warranty orders will be considered. Even with warranty orders we will have the option to replace customer's defective product with the same discontinued product they originally purchased, or replace all doors originally ordered with a current product that is similar in appearance.

VISIT US AT: [HOMECRESTCABINETRY.COM](http://homecrestcabinetry.com)

All orders taken are subject to approval by Homecrest and, after acceptance, are not subject to change without our consent. Homecrest carefully inspects and packages all merchandise and will ship via the best transportation facility available as it determines.

Any claim for transportation damage must be handled with the carrier.

No merchandise returns to Homecrest Cabinetry without prior written approval.

Styles, product availability and construction may vary slightly from those shown in this book due to material availability and/or design evolution. Specifications are subject to change without notice. Customer service is available if your design requires verification of product availability and specifications.

When Hardwood is painted, cabinet components, doors and/or drawer fronts may be constructed of various hardwood materials and/or composite materials such as Medium Density Fiberboard (MDF) and/or High Density Fiberboard (HDF).

Homecrest® has a Limited Lifetime Warranty.
